

## Rochester Institute of Technology

### **COVID-19 – On-Campus Contractor Safety**

- RIT Project Managers overseeing work on campus will provide direction to all associated contractors/sub-contractors regarding their responsibility for following the NYS COVID-19 Guidelines regarding Construction Activity while performing work on the campus.
- Contractors and sub-contractors will be responsible to follow the [RIT Guidelines associated with Visitors and Construction](#).
- Contractors and sub-contractors will also be responsible for following [NYS Guidelines as of May 14, 2020](#) .
- For further clarifications, please see the [RIT Coronavirus Updates and Resources page](#).
- As with any contractor work related issue, RIT Project Managers will notify the job supervisor of any observations associated with poor performance, bad practices, safety concerns and now in addition, issues associated with the COVID-19 Guidelines.
- The RIT Project Manager will notify any contractor or subcontractor and the job supervisor of any exhibited behavior that has the potential of putting the RIT community at risk, and action will need to be taken to stop that activity. This includes behaviors inconsistent with the RIT Visitors and Construction Guidelines.
