Unlimited Courses
Courses form the core of our program. Our 40+ course offerings per term are presented in a friendly, relaxed atmosphere where there are no tests or other “measurement” criteria. We encourage interaction and discussion in every class.

Pfaudler Lecture Series (Thursdays at 12:15, Winter, Spring, & Fall Terms)
Listen to a thought-provoking lecture by a guest speaker.

Social Events
An important part of the Osher experience is socializing with fellow members in a relaxed atmosphere at events such as a river-boat cruise and our annual picnic. We hope to be able to offer more in-person events soon.

Intersession Trips
Intersessions are short, between-term trips to interesting local attractions. We hope to be able to offer more in-person events soon.

SIGs (Special Interest Groups)
Osher members with a shared interest in a specific area of knowledge, learning, or technology gather at least monthly. All members are encouraged to join an existing SIG or to initiate the formation of a new SIG. See page 19 for more information.

Arts & Lectures Series
This enrichment series, made possible by our endowment from The Bernard Osher Foundation, brings us entertaining artists and expert speakers at no additional charge to members. Our next event, “Creative Collision”, is a collaborative performance by PUSH Physical Theatre and the Ying Quartet on Friday, April 29 at 2 pm in the Panara Theatre on the RIT campus.

What’s Happening This Spring

**In-Person AND Zoom Classes and Events**
The Osher Council voted to open for in-person classes on April 11th for the Spring 2022 Term. We will continue to offer Zoom classes as well. We look forward to our facility reopening – with fresh paint and new carpet – and enjoying being back on campus.

In addition to spring in-person classes, we also have a live, in-person Arts & Lectures event on April 29 at 2 pm – **Creative Collision.** This show is a new collaboration between PUSH Physical Theatre and the Grammy-winning Ying Quartet. It will be at NTID's Panara Theatre on the RIT campus, and it’s free for members and their guests. This a great way to celebrate being back together again!

**Safety Measures**
The following safety measures must be followed in order to participate in-person in our program:

**Vaccination**
In accordance with RIT policy, we are requiring proof of COVID-19 vaccination to participate in all in-person classes and events. Be prepared to show proof upon entering the building. **Acceptable forms of proof for the three-vaccine series (includes booster) are:**

- the NYS Excelsior Pass Plus (on your smartphone)
- the hard copy of your CDC vaccination record card

**Masking**
As of March 14 RIT’s indoor face mask mandate remains in effect, and Osher will follow the RIT mask mandate. We strongly encourage the use of KN95 masks or better that cover the nose and mouth. As RIT modifies its mask mandate, we will keep Osher members informed.

**Eating & Drinking**
Eating and drinking will not be allowed in the classrooms during instruction. During the lunch break members can use the kitchen or classrooms to eat.
IMPORTANT: You must be current with your payment in order to register for courses. If your membership expires before the Spring 2022 Term begins, and you are not paying online, please make your payment well before registration day, TUESDAY, MARCH 29.

#### Current Events

*Sp1M*

[NEW CONTENT] Attendees choose timely topics to discuss. Class members are encouraged, but not required, to participate in the discussions. All political views are welcomed and respected. Join us to “talk the talk”.  
**Discussion**

Dick Scott has led many Osher courses and enjoys the program both as a presenter and an attendee. Rachel Adonis recently retired from her career in financial services. She has enjoyed attending Osher classes and is looking forward to participating as a course leader.

Mondays: 9:30 – 11:00 am  
**TEN** Weeks: April 11 – June 20

#### How Languages Change (Mainly American English)

*Sp2M*

[NEW CONTENT] Languages are changing constantly. Ideas about how and why they change can help us understand more about what language is—an adaptation of more general mental tools, or the outcome of a particular evolutionary step that produced a “language instinct” as followers of Chomsky would have it? Or does language change lead us to think about it as a primarily social invention? In addition to the usual linguistic categories—words, structures, and meanings—we’ll consider social and cognitive dimensions that affect language (with assistance from Michael Tanenhaus).  
**Course Website:** [http://sites.google.com/view/ideasaboutlanguagechange](http://sites.google.com/view/ideasaboutlanguagechange)  
**Discussion, Lecture**

David Hill has led a variety of courses in literature and language, the fields in which he worked as a college professor.

Mondays: 9:30 – 11:00 am  
**EIGHT** Weeks: April 11 – June 6

#### Lester Leaps Again: The Tenor Saxophone in Jazz, Vol. 2

*Sp3M*

[NEW COURSE] [MULTI-PART SERIES] The tenor saxophone has produced more jazz talent than any other instrument except the piano. The instrument’s popularity for both musicians and listeners is that it, more than any other instrument, captures the sound of the human voice—warm, throaty, capable of expressive shifts of dynamics, and tone color. This course will follow a younger generation of players such as Stan Getz who were influenced and inspired by the innovative improvising style of Lester Young. Participation in Part 1 (Fall 2021) is not a prerequisite.  
**Audio/Visual, Discussion, Lecture**

Peter Luce enjoys learning about jazz by leading courses at Osher.

Mondays: 9:30 – 11:00 am  
**TEN** Weeks: April 11 – June 20

#### Memoirs

*Sp4M*

If you have ever wanted to write your memoirs but get blocked by such thoughts as How do I start?...My kids wouldn’t care...I can’t seem to make the time..., then join us. We gather to share our writing in a non-critical setting which many members find to be valuable in starting a most rewarding project—getting their memoirs onto paper.  
**Reading, Writing**

Carol Samuel is an enthusiastic veteran Memoirs class leader. A retired obstetrical nurse, she believes there is much convincing evidence today for the value of writing memoirs.

Mondays: 11:15 am – 12:45 pm  
**TEN** Weeks: April 11 – June 20

[Note: A course with the designation "REC" means that the live course will be recorded for later viewing on our members-only content hub website.]
Treasures from the Deep: Two Ancient Shipwrecks

**NEW CLASS** This course will describe the two most famous shipwrecks of antiquity, the Antikythera wreck and the Uluburan wreck. Recovered artifacts from the Antikythera wreck (1st century BCE) included the astonishingly complex mechanical device known as the Antikythera Mechanism, sometimes described as the world’s first computer. The Uluburan wreck yielded an astonishing array of cargo from the late Bronze Age (14th century BCE) that gave new insight into this not-well-understood period of Mediterranean commerce.

Ever since watching *Sea Hunt* as a child, Gary Mitchell wanted to be an underwater archaeologist. Life led him in other directions, but he stays abreast of nautical archeological discoveries. He has been fascinated for years by the Antikythera and Uluburan wrecks and hopes to share his enthusiasm for these discoveries.

A Course Is Born

Sharing your knowledge with your fellow members is incredibly rewarding and not hard to do when taken step by step. There are as many ways of preparing a course as there are course leaders at Osher, but all follow these basic steps: choosing a topic, researching, then collating data to fit into our course timeframes. This one-session will cover that and more like creating PowerPoint presentations and finding videos. Come, learn, and perhaps give it a try.

Debbie Huff, an Osher member since 2006, has led courses for over a dozen years. As chair of the Course Offerings Committee, she is responsible for the quality of our program and for recruiting new course leaders to keep our Osher growing.

[NEW CLASS] Gertrude Bell was an explorer, mapmaker, writer, linguist, and self-taught archeologist. After World War I she worked tirelessly for the independence of Arabs, especially in Mesopotamia, and drew the borders of modern-day Iraq.

[NEW CLASS] Dr. Martin Luther King, Jr. had a dream that “the sons of former slaves and the sons of former slave owners will be able to sit down together at the table of brotherhood.” Betty Kilby Baldwin and Phoebe Kilby found a way, as “daughters,” to fulfill Dr. King’s dream. Space Junk: A Problem for Astronomers and a Risk to Astronauts

There are more than 200,000 pieces of man-made debris sized 1 to 10 cm plus millions of smaller bits in low-Earth orbit right now. This is “space junk”. It presents risks to communications satellites and to astronauts in the International Space Station. The Space Surveillance Network, operated by the US DoD, tracks ~27,000 of the larger objects. Now Elon Musk’s SpaceX venture has plans for “mega-constellations”, consisting of thousands of orbiters intended to provide worldwide Internet and communications coverage. We will consider the space junk problem and explain why astronomers and anybody who appreciates the night sky might question Musk’s expensive scheme.

When satellites first started to be launched into orbit over 65 years ago, Tom Jones paid close attention to them and often spotted them moving across the night sky. Little did he realize at that time just how quickly our skies would start to fill up with a combination of functioning satellites and discarded junk.

Cormac McCarthy’s The Crossing

[NEW COURSE] McCarthy’s work is often compared to the work of Faulkner, Melville, and Shakespeare. One reviewer from The New York Times called The Crossing a miracle in prose. Enigmatic and profound, this book is the the most philosophical of the three that comprise The Border Trilogy. Though not an easy read, it rewards its readers many times over with its mystical language, mythic landscape, and otherworldly dreams and visions. Required Text: The Crossing by Cormac McCarthy, ISBN 0679760849  Discussion, Reading

Francia Roe has a Master’s degree in English from the University of Rochester and taught Advanced Placement English Language and Advanced Placement English Literature for 28 years.

Tuesdays:  9:30 – 11:00 am
NINE Weeks:  April 12 – June 7  In-Person
The Life and Times of Russian Tsar Peter the Great ................................................................. Sp20T
[NEW COURSE] One of the most famous and fascinating of the Russian tsars, Peter the Great’s reforms totally changed life in Russia and transformed the country into a European power. Should he be glorified as a forward-looking, meritorious statesman, vilified as a crude, ruthless tyrant, or both? An informative and interesting mix of lecture, stimulating visual media, and witty humor will bring this historical figure to life (figuratively speaking). Audio/Visual, Lecture

Mark Chapman is a retired elementary school teacher who is interested in history and how it has shaped our modern world. He has previously led an Osher class on the Barbary pirates and their wars with the United States.

Tuesdays: 9:30 – 11:00 am
TEN Weeks: April 12 – June 14

Romeo and Juliet .................................................................................................................. Sp21T
[NEW COURSE] Everyone thinks they know Romeo and Juliet. But overuse and over familiarity have debased and cheapened the title to the status of a cliche. Today we mostly see the play through the lens of 400 years’ worth of trivialized third-rate pretenders. We will return to the original Romeo and Juliet before all the saccharine, Hallmark, happy-ending, adulterated copies. To do this we will watch two quite different performances of the play. In addition we will sample a number of musical works inspired by the play. Course Website: http://www.thoughtlab.photography  Audio/Visual, Discussion, Lecture

Richard Mallory has led numerous previous Osher courses on a variety of subjects.

Tuesdays: 9:30 – 11:00 am
TEN Weeks: April 12 – June 14

Hinduism and Buddhism ................................................................................................. Sp22T
[NEW COURSE] Over a billion of the world’s people practice the Hindu religion and another 500 million identify as Buddhists. This class will offer an introduction to the the history, beliefs, and practices of these great religions.

Regional Geography of New York State ........................................................................... Sp23T
[NEW COURSE] New York State is geographically unique in many ways. It is the only state that can be a Mid-Atlantic state and a Great Lakes state. We claim the only low-elevation break in the Appalachian chain which is why we have the Erie Canal. For these reasons the Empire State can be divided into several regions: Metro NYC, Adirondacks/Catskills, the Erie Canal corridor, Hudson-Champlain corridor, and the Appalachian Uplands. Each week will feature a different region, its physical and human geography, and its history. Audio/Visual, Lecture

“Whither Goest Thou?: Downsizing Decisions
[NEW COURSE] Many of us are at a point where it’s advisable to make a substantial change in our living arrangements. How does one know whether it’s time to move out of the “empty nest”/family homestead and what are the options available? Please Support the Future of Osher!

It's that time of year again when we reflect on and celebrate life's bright spots, and the Osher Lifelong Learning Institute at RIT is one for many of us, especially during the past year and a half when we have been in isolation. Members have shared that:

• “The quality of the instruction (presenters, material, organization, use of mixed-media, use of Zoom, etc.) is excellent.”

• “We recommend Osher frequently. It's a tremendous gift.”

• “Osher Zoom classes were my sanity salvation during the epidemic.”

Our membership fees typically cover just under half of what it costs to run our program. The shortfall is funded by our endowment from The Bernard Osher Foundation, by RIT paying the rent for our facility, and by donations. Your generous contributions are especially important this year because membership is down by 150 people due to the COVID-19 pandemic and closure of our campus. We need your help to have a successful fundraising campaign not only to cover general needs, but to keep our program up-to-date and thriving. You may have already been contacted by RIT directly. If you respond to that solicitation, we hope you will designate Osher as the recipient. If you have already responded and designated Osher – thank you! Remember, Osher at RIT is a not-for-profit organization, and your donation is tax deductible.

As the calendar year comes to a close, many of us will be receiving required distributions from IRAs. If you can, remember that you are able to donate all or part of that distribution from your IRA to Osher so that the amount will be excluded from your taxable income. Some financial institutions will send the charitable distribution to you and have you forward it to Osher; while, other financial institutions will send the distribution directly to your chosen non-profit, such as Osher. I have found this to be an excellent way to support Osher and our outstanding programs.

Additionally, gifts can be made online at http://tigers.rit.edu/goto/Osher, or by using the perforated section at the bottom of this letter. Gifts of any amount go a long way!

Very truly yours,
Joan Dupont—Chair of Council
