UPSTATE ACCELERATED SCHOLARS AT RIT

GUARANTEED MEDICAL SCHOOL ACCEPTANCE PROGRAM

Creating individual paths to medical school through a variety of majors.

Rochester Institute of Technology and Upstate Medical University College of Medicine are pleased to offer a new program providing focused students with an opportunity to secure acceptance to medical school as early as their freshman year at RIT.

Students accepted into the program are guaranteed acceptance at Upstate Medical University College of Medicine upon graduation with a Bachelor's Degree from RIT.

It is Upstate Medical University's intention that this will help shape diverse, well-rounded doctors and researchers.

Students will not have to take the Medical College Admission Test (MCAT) or go through the standard medical school interview process.

Students must maintain a qualifying Grade Point Average (GPA) while in college. Students will also have the opportunity to participate in summer programs at Upstate Medical University to prepare for the rigors of medical school.

At RIT, study what interests you, be accepted for who you are, and prepare to be the person you were meant to become.
