FOREWORD

As the 1941 issue of the Ramikin goes to press, most of the world is engulfed in war. In Europe, the energies of young men and women are regimented for destruction; death is common, tragedy impends for the living. Here in the United States of America, freedom and democracy are active forces. The youth of the nation is constructing and building for a better existence instead of another Dark Age.

The Rochester Athenaeum and Mechanics Institute is training men and women to participate with a trained and vital intelligence in preserving and improving the American way of life. Despite grim overtones of a world conflict these following pages fully attest that formal education, avocations, friendly yet competitive sports, and good fellowship are vigorously encouraged and developed by the tolerant wisdom of a fine faculty and board of directors. May this book be a recording of our life in the Institute.
BOARD OF DIRECTORS OF THE ROCHESTER
ATHENAEUM AND MECHANICS INSTITUTE

Arthur W. Beale
Vice-Pres. and Treas., Beale Const. Co.

John P. Boylan

Herbert W. Bramley*
Vice-Pres., Sibley, Lindsay & Curr Co.

Theodore C. Briggs
Vice-Pres., Lawyers Co-operative Publishing Co.

Kendall B. Castle
Attorney, Castle & Fitch

Albert K. Chapman*

Brackett H. Clark
Sec., Cochran-Bly Co.

George H. Clark*
Treas., Rochester Athenaeum and Mechanics Institute
Dir., Eastman Kodak Co.

W. Dewey Crittenden
Chairman, Board of Directors, Genesee Valley Trust Co.

A. Edwin Crockett
Mgr., Industrial Management Council, Chamber of Commerce

Mrs. C. Schuyler Davis
Dir., Public Health Nursing Association

M. Herbert Eisenhart*
Pres., Bausch & Lomb Optical Co.

Mark Ellingson*
Pres., Rochester Athenaeum and Mechanics Institute

Charles K. Flint

Frank E. Gannett
Pres., Gannett Co., Inc.
Publishers, The Gannett Newspapers

James E. Gleason*
Pres., Gleason Works

Edward A. Halbleib*
First Vice-Chairman, Rochester Athenaeum and Mechanics Institute
Gen. Mgr., Delco Appliance Division, General Motors Corporation

Ezra A. Hale
Sec., Lawyers Co-operative Publishing Co.

Carl S. Hallauer
Vice-Pres., Bausch & Lomb Optical Co., Pres., Bausch & Lomb Optical Co., Ltd., of Canada

Mrs. Alfred Hart
Pres., Jewish Children's Home

Sol Heumann
Chairman, Board of Directors, Timely Clothes, Inc.

Arthur H. Ingle
Pres., Consolidated Machine Tool Corp.

P. Richard Jameson
Vice-Pres., Taylor Instrument Companies

Verner C. Kreuter
Vice-Pres., American Laundry Machine Co.

Mrs. William Brewster Lee
Board of Managers, Rochester Friendly Home

Frank W. Moffett*
Vice-Pres., General Railway Signal Co.

Oscar H. Pieper
First Vice-Pres., Ritter Dental Manufacturing Co.

John D. Pike
Pres., John B. Pike & Son, Inc.

Herman Russell*
Second Vice-Chairman, Rochester Athenaeum and Mechanics Institute
Pres., Rochester Gas & Electric Corporation

Benjamin G. Stallman
General Contractor, H. Stallman Sons

Harry C. Stevenson
Pres., Rochester Folding Box Co.

Albert F. Sulzer*
Secretary, Rochester Athenaeum and Mechanics Institute

Raymond L. Thompson
Treas., University of Rochester

*MEMBER OF EXECUTIVE COMMITTEE
DEDICATION

The nineteen hundred forty-one Ramikin is dedicated to a man whose years of association with the student body serve as a source of strength and inspiration. To express our sincere appreciation for the constant friendship and guiding counsel that he has given to us, we dedicate this, the thirtieth volume of the Ramikin, to Calvin C. Thomason.
On the following pages we will try to show what we as students of the Institute do with our time here. First, we show where we go to school. Our campus is unimportant but what is contained in these buildings is very important because it is from here that we secure our education. Next we show some of the things we do in school. This illustrates in some cases how we put our studies to practice in our laboratories. Since we also work on cooperative jobs in businesses in the fields in which we are studying we show you some of the tasks we perform on the job. It is here that we apply to real life what we have studied and practiced at the Institute. We also have some spare time away from school and the job, so now we show you how we sometimes use our spare time. Since we are training in so many different fields we thought you would be interested in knowing the names of some of the companies where we work, so finally, we show you in their own styling the names of many of our cooperative employers. We work here as students and we hope to continue here when we graduate. This is a brief picture of our year in school.
WHAT WE DO IN SCHOOL
How We Work

11
WHEN WE PLAY
A  n important part of our school is the administration of its affairs.

On the following pages we will picture by word and illustration the members of the staff of the Institute. Their training and experience cover all sections of the country and varied occupations. Thus we feel that they are very capably training us for our future professions. They have gained for us a fine reputation for ability in teaching and training us to be efficient performers in our chosen fields.
Mark Ellingson, our president and constant friend. Under his guidance, the Institute has grown tremendously as a truly outstanding educational institution. He shows an inspiring interest in our efforts to gain a valuable education and steadily improves the facilities for our studies. He is widely recognized as a leader in the development of progressive vocational education.
INDIVIDUALIZED education, which has always been essential in the teaching of art, makes the art program effective and useful in this day of art in industry, commerce and education. The courses offer comprehensive experience and training in both commercial and cultural art. The department is one of the oldest in the Institute.

MR. CLIFFORD M. ULP graduated from the Institute and studied at the Art Students' League in New York City. He did advertising and illustration in New York and in Rochester. ALLING CLEMENTS graduated from the Institute also, and after a year's study at the Art Students' League and in Europe, free lanced in New York. CHARLES HORN attended Pratt Institute and the New York School of Fine and Applied Art. He studied painting under Charles Woodbury and Herbert Barnett. RALPH AVERY graduated from the Institute and studied painting under Charles Woodbury and Leith-Ross. He is the curator of the Rundel Art Gallery. ARTHUR N. SINCLAIR was an art student at the Institute, and a student of photography at the Winona School of Photography. MILTON BOND graduated from the University of Rochester and from the Institute. He was art director of the Munsell Research Laboratory. MINNIE WYMAN attended Boston Normal School, Corcoran Art School, New York School of Fine and Applied Art and was a pupil of Hugh Breckenridge. FRED A. WELLS is a new member of the faculty this year.
The Department of Social Sciences contrives to combine a cultural background with specialized department courses. Classes in philosophy, psychology, economics, social problems or current events are included in all curricula. Open discussion is the rule rather than the exception in these classes.

Mr. Calvin C. Thomason, B.A., counselor, attended the University of California, University of Oregon, University of Wisconsin, and Columbia University. Mr. Thomason at one time held the position of travel editor, U.S. Navy, Washington, D.C., and before coming to the Institute, was connected with the Idaho Technical Institute. Alfred Davis, M.A., attended Salem College and Syracuse University. He was employed in the industrial efficiency department of Bausch and Lomb. Warren C. Davis, Ed.D., attended State Normal College, Idaho, Columbia University, University of Rochester, University of Buffalo, and was an instructor at Brigham Young University.

Hazel Howland, M.A., attended the University of Rochester. Margaret Jameson received her B.A. from Vassar, and was an instructor at Chautauqua Summer School. Marie Kinnear graduated from the Boston School of Physical Education, and was director of health education at the Rotary Sunshine Camp for Crippled Children. Milton McCullough, B.S., M.A., attended Kent State University and Ohio State. Burton Stratton, B.S., graduated from the Mechanics Institute Electrical Course, and also attended Ohio State, University of Minnesota, and Syracuse University.
The individualized curricula of the foods department offers to students training in two professional fields: hospital dietetics and commercial management. The students in dietetics secure hospital internship as cooperative work, and those in management serve their cooperative apprenticeship in commercial establishments.

MRS. GEORGIE HOKE, counselor, is a graduate of Hyannis State Normal School, and for a time was director of health education in the Public Schools of Walden, Mass. RICHARD FREER, M. S., is the instructor of chemistry and bacteriology in the department. He graduated from the University of Vermont. GLADYS LONG, assistant director of the cafeteria, attended Drexel Institute and Columbia University Teachers College. She was cafeteria manager at Washington State, and a teacher in the schools of Youngstown, Ohio. VELMA PURINTON, cafeteria manager, was granted the degree of Bachelor of Science from the University of Vermont, and received her M. A. from Columbia. JEANE SYME received her B. S. from Iowa State and has been connected with Memorial Union Cafeteria in Washington. LOIS TERK joined the staff of the Institute this year. After attending the Institute, she received her degree from Columbia University. BERTHA THURBER is in charge of catering. She attended Buffalo State Normal and the Institute. Before coming here as an instructor, she was on the staff of the Corning Public Schools.
PHOTOGRAPHIC TECHNOLOGY

The Department of Photographic Technology was organized in 1930 as a two-year course, and in 1936 the course was extended from two to three years. In 1940, a color course was added to the curriculum. The department is recognized as one of the leading photographic schools in the country.

MR. C. B. NEBLETTE, counselor, graduated from Illinois College. He is the author of *Photography, Principles and Practice* and is a charter member of the Photographic Society of America, as well as a Fellow of the Royal Photographic Society of Great Britain. FREDERICK W. BREHM attended the University of Rochester and Cornell University. HOWARD C. COLTON was granted a B. S. degree from Harvard in 1933, worked in color photography studios in New York City, and joined the Institute staff in 1939. WALLACE E. DOBBS, B. S., is a graduate of Ohio State University and Managing Secretary and Treasurer of the Photographer's Association of America. CHARLES A. SAVAGE, owner and operator of Savage Photo Studio, attended the Institute and the Winona School of Photography. SILAS M. THRONSON received his M. A., from Massachusetts Institute of Technology, and was an instructor at the University of Florida. MARTHA BONKOWSKI WIEHN served an apprenticeship with Hal Sefton and was connected with Bausch and Lomb.
THE Department of Publishing and Printing, youngest of the Institute's educational departments, offers courses planned on a technical level comparable to that of the other departments at the Institute. A purely professional course is offered, and it is one of the most completely equipped schools in the United States.

MR. BYRON G. CULVER, counselor and instructor in layout, graduated from the Institute. FRANK DE WITT, instructor in hand composition and estimating, graduated from Middlebury College, and also attended Carnegie Tech and the Chicago School of Printing. He was production manager for the Otter Valley Press Company of Middlebury, Vermont, before joining the Institute staff. ADAM GILLILAND is a part-time instructor in hand composition and teaches monotype operation. LE ROY PROVINS teaches writing and publishing, and history of printing. DONALD L. RITCHIE is a graduate of Oswego State Normal, and was superintendent of printing, Rochester Museum of Arts and Sciences, before he came to the Institute. JOSEPH F. SORACE, instructor of machine composition, attended Brown Business College in New York City, and has worked on many newspapers.
For several years, courses in buying, selling, sales promotion, store manager, personnel administration and customer service have been offered at the Institute. The courses are co-operative, and practical experience is effectively combined with theoretical training. Today, graduates hold executive and supervisory positions in retail establishments throughout the country.

MISS EDWINA B. HOGADONE, M. A., counselor, graduated from the University of Michigan. She studied at the Research Bureau for Retail Training at the University of Pittsburgh. Miss Hogadone has been counselor since 1936. DONALD K. BECKLEY, M. S., attended Columbia University and the School of Retailing of New York University. DOROTHEA M. FRITZ, B. S., graduated from the University of Minnesota. HORACE W. KOCH, M. S., attended Morningside College and the School of Retailing of New York University. BERNICE MOHLENHOFF, M. A., is a graduate of Iowa State Teachers' College, and attended Iowa State and Columbia Universities. JEAN M. STAMPE is a graduate of the School of Applied Art of the Institute, and the New York School of Fine and Applied Art. She also studied at the New York School of Display.
The curricula of the Electrical Department provides co-operative training with the student progressing at his own rate toward professional standards.

MR. EARLE MORECOCK, B. S., counselor, graduated from Clemson College. He was an electrical engineer at West Virginia Engineering Co., and consulting engineer at Delco Appliance Co. He is a licensed professional engineer of New York State. JAMES H. GOULD, B. S., graduated from the Institute and University of Michigan. He is employed at Bausch & Lomb Optical Co. AUSTIN FRIBANCE, M. S., is on leave of absence, serving as Captain in the United States Army. EARL KARKER, M. S., was employed with the Installation, Commercial Engineering and Employee Training Divisions of General Railway Signal Company before coming to the Institute. WALTER MINZNER, M. S., is a graduate of Northeastern University and attended Texas Agricultural and Mechanical College. CLARENCE TUITES, B. S., graduated from Clarkson and was connected with the Westinghouse Electrical and Manufacturing Company and the Commonwealth Power Corporation.
INDUSTRIAL CHEMISTRY

Chemistry is one of the most important fields in modern industry, and consequently, the demand for trained men is great. Because of constant expansion of industrial requirements, the course of study is revised continuously.

MR. ALFRED JOHNS, counselor, received his M. A. from the University of Rochester. He attended the Massachusetts Institute of Technology. RALPH H. BRADEN, M. S., attended Baldwin-Wallace College and the University of Chicago. MARIE GILLARD is a graduate of Mechanics Institute. RALPH L. VAN PEURSEM, Ph. D., graduated from Iowa State College, and was connected with the Engineering Department of Eastman Kodak.

GENERAL HOME ECONOMICS

The General Home Economics course offers training in home management and develops competency in household production of food, clothing, and home furnishing.

MISS MAY D. BENEDICT, counselor, received her Bachelor of Science from Columbia University. EUNICE STRICKLAND attended the Janet Hill Summer School and the Institute.
The addition of new equipment of modern design has greatly expanded the courses offered in the Mechanical and Construction Department. To a progressive student, the curriculum of this course has unlimited possibilities.

MR. HERMAN MARTIN, counselor, graduated from the Institute in 1904. He was a draftsman and designer at the Gleason Tool Co., and for a time was connected with the Stromberg-Carlson Company. RAYMOND BIEHLER, B. S., was granted his degree from Ohio State University. HAROLD J. BRODIE attended the Institute. WILLIAM CLARK, B. S., is a graduate of Massachusetts Institute of Technology. MURLAN CORRINGTON, B. S., M. S., was graduated from the South Dakota School of Mines, and was assistant in physics at Ohio State University. CYRIL DONALDSON, B. Sc., M. S., attended the University of Texas, and Ohio State University. JOHN ELBERFELD received his B. S., M. S. from Harvard Engineering School. GEORGE LE CAIN, B. S., graduated from Tufts College. BRAINARD PLEHN, M. S., M. A., attended the University of Nevada, the University of Berlin, and Columbia University. DUNCAN SEAVEY
received his B. S. from Tufts College. CHARLES SPEIDEL attended the University of Rochester, and was chief electrical engineer of Camera Works. SHERMAN HAGBERG, B. S., has been employed at the Union Tool Co. and the Camera Works and has been in charge of the Institute machine shop for several years. HERBERT BOHACKET, A. I. A., attended Lowel School of Design and has been associated with several leading architects in the East.

Wyman, Minnie R.  
Applied Art
With a slight increase in enrollment over last year’s figures, another school year brings to the end the schooling careers of many and the beginning of others. Enrollment this year for the day school was approximately 877 students. In addition to this there were 77 special students, bringing this total above the 900 mark, an unprecedented figure in the history of the Institute.

About 236 Seniors will be graduated this year. The school year just completed at the Institute has certainly been successful for all concerned, both in the fulfillment of educational requirements and the enjoyment received through the various social and athletic activities.

Congratulations should be in order for the members of the Senior Class, who during their school years at the Institute have proved themselves hard-workers and have engineered several of the school’s most successful projects, and social events. They will long be remembered for the things they have accomplished while here and our only hope is that success will be an assured factor in the future for all of them.

The Junior and Freshmen classes, which outnumber the Senior class are also proving themselves to be an ambitious and cooperative group. Already they have been responsible for numerous activities in the social calendar in addition to upholding the traditions of the Institute.
You and I are reaching another milestone on the highway of life. To all of us, Convocation will mark an especially important step in our formal education. Whatever special meaning it may have for each one of you, it is pleasant to realize that events cast their shadows before them. May your Convocation be an indication of future success, and may your appreciation and respect for the Institute grow as your life here passes from reality into retrospect.
THE class of 1941 is recording its final acts on the pages of Time with but one regret—that the years spent at the Institute have passed too swiftly.

Our first year found us looking and listening to the upperclassmen, but in 1940 we came of age, and sponsored our first big dance, the Junior Prom. The Sagamore Hotel's Starlight Roof was the scene of the dance.

This year, the class held a "Gay Nineties" party in the Bevier Gallery. Flora-dora girls, Barber-shop quartets, and "Seniors only" were the order of the evening. At the Sagamore on March 22, we had our formal Dinner Dance. The last social event to be sponsored by the class is the Senior Ball, which is to be held in the Masonic Ballroom. An extra-smooth band and a roomy floor guarantee its success.

Convocation will take place on May 17. Then, with our experience at the Institute behind us, we set forth on a new career, the course of which is controlled by ourselves and by Destiny, and hidden within the pages of time.

Rochester, N. Y.
 Sept., 1939—We were then mere Freshmen at Mechanics, all filled with that lost feeling until after our Freshmen Mixers at which we became more acquainted with our fellow students. This first month we elected someone from each group to represent his class on the Student Council and Executive Committee.

 Nov., 1939—The officers with the aid of some of their classmates and adviser Mr. Biehler planned a roller skating party. This proved to be a great success with majority of the Freshmen Class and their guests attending.

 Feb., 1940—Due to the successful skating party, we felt that we would like another get-together so we gave a Barn Dance. This was held at the Old Red Barn and refreshments were served.

 Jan., 1941—Every Junior was excited about the Junior Prom which was held at the Masonic Ballroom, January 25. Tom Jennings, president of the Junior Class was the general chairman and Louise Emes, Rita Greenwood, Bill Scanlon, Ozzie Button, Jack DeLelys and Jorg Ball headed the various committees. We are proud of the fact that we were able to have the Institute's first big band, namely, Al Kavelin and his Cascading Chords. The favors were good luck charms engraved with an M. I.

 Now as the end of our second year of school draws near we are all looking forward to another successful year.

66
STUDENT LIFE

This year the Student Council dedicated the building formerly known as the Student Center to Mr. George H. Clark for his sincere interest in the Institute. It is now called Clark Union.

Our Clark Union has afforded us a most pleasant spot and has absorbed many of our spare hours. It has provided a place where the students could find pleasant recreation. Organizations and classes have sponsored parties and occasional dances in the large and well furnished rooms of Clark Union. A bridge club was formed and held its weekly meetings every Thursday night. A series of weekly concert programs inspired by a gift of a recording set and six hundred records presented by the Carnegie Foundation were fully appreciated by all who attended.

Clark Union has solved the problem of where the many organizations sponsored by the Student Association might hold their meetings. The Ramikin, Psimar, and Student Council staffs have welcomed having private offices in which to carry on their work. The Glee Club and Gargoyles were grateful for an assigned room for their meetings and rehearsals. Department clubs have enjoyed larger attendance and more fun at their meetings held at the Union. It has provided the fraternities and sororities with a place for their meetings and social events.

Its spacious game room, smoking facilities, lounges, and meeting rooms have made Clark Union the point of interest for Institute students.

We extend our appreciation to Mrs. Caroline Thomason for her many kindnesses shown us as counselor of the Union.

Mrs. Caroline Thomason
The governing power of the student body is vested in the Student Council. The Council is made up of six members from each class. These elected students meet bi-monthly on Tuesday to discuss and decide current student problems. All matters of student interest are considered with a view to furthering sportsmanship, promoting self-government, and encouraging student activity.

One of the most important functions of the Council each year is the appropriation of student funds for extra-curricular activity. In compliance with student requests, several activities were added this year. The student Band was re-established as an activity. Fencing was introduced for the first time and Dancing instruction was provided. The Council also appropriated a sum of money toward the Institute Endowment Campaign.

The major student project during the year 1939-40, was the further establishment of the Student Center. This year the Student Council voted unanimously to dedicate that building to Mr. George H. Clark for his constructive interest in education. The building is now known as Clark Union.

Early in the spring, the Student Council received an invitation to send delegates to the regional Convention of Student Unions which was held at Cornell University. Several members attended the Convention.

The closing months of the year found Council members engrossed in promoting a campaign on student government. All students were informed about the organization of the student government in order that they might have more thorough knowledge of how it operates and serves them.

The awards assembly was held late in the year in accordance with the usual custom and awards were given in recognition of what they contributed to students through some extra-curricular work. To the many faculty members who spend time and energy helping students with these extra-curricular projects, we offer our thanks in the name of the student body. The Student Council is especially grateful to Mr. Burton Stratton and Mr. Alfred Davis for their helpful counsel through the school year.

Within the covers of this book the Ramikin Staff of nineteen hundred forty-one, with the cooperation of the student body and administration, has endeavored to accurately depict in a literary and pictorial manner this year’s life and activity of the Rochester Athenaeum and Mechanics Institute in miniature. It is the sincere wish of the members of the staff that this book will preserve the memories of pleasant and well-spent days of our years at the Institute. So it is hoped that this thirtieth volume of the Ramikin may be a source of pride and lasting enjoyment to the administration, to the alumni, and to the under-graduates to whom it is presented as another chapter in the splendid history that is hers.

PSIMAR

The Psimar, the student publication of the Institute, has continued to live up to the standards set up by former editorial staffs in furnishing the student body with a complete coverage of student activity.

During the present school year the Psimar editorial staff made and adopted an editorial style manual which it hopes will serve as a guide for future editors and reporters of the school publication.

The Psimar continued to improve typographically and it may be said that it went modern and became "streamlined". The school paper is edited and printed in the school, the department of Publishing and Printing continuing to produce the printed publication.

The year's staff wishes to thank everyone connected with the school paper for their efforts and cooperation throughout the year and wish the future staffs the greatest possible success.

Barbara Maulbetsch ................................................ Freshman Representatives
THE Executive Council is composed of representatives of Freshmen, Junior, and Senior classes. This group acts as the governing body of the house, and its goal is to promote harmony and good fellowship among the girls, and to provide social activities for them. Each year, the Council revises the rules and regulations. Many innovations in government have been made from suggestions of Dr. Charters of the advisory board.

As usual, the highlight of the year was the annual Dorm Formal, held in the Hotel Seneca on November 18. Besides the regular faculty teas, birthday dinners, and buffet suppers, the Dorm sponsored a Harvest Carnival in October and a Valentine Tea Dance in February.

The friendly spirit and cheerful atmosphere of the Dormitory is due largely to the cooperation of the director of the Residence Hall, Miss Florance Meyer, and her new assistant, Miss Grace Lee. Without their help, the Council could not have accomplished what it did this year.
MECHANICAL STUDENTS' ASSOCIATION

OFFICERS

BLOCK A
Stewart Price . . . . . . President
Frank Liedecker . . . . . Vice-President
Ralph Thornton . . . . . . Secretary
Jack Lund . . . . . . Treasurer

BLOCK B
James Tobin . . . . . . President
William Bowman . . . . . Vice-President
Horace Holliday . . . . . Secretary
Donald Elsenheimer . . . . . Treasurer
Cyril Donaldson . . . . . . Faculty Adviser

In 1940-41, the Mechanical Students' Association enjoyed one of its finest years since its inception in 1925 as an organization for developing good fellowship and widening the education of the Mechanical students through presentation of technical subjects pertaining to their field.

Enrollment this year was unusually large due to the activity of the membership committee and a large freshmen representation.

According to custom, officers were elected for both blocks in order to better carry out the affairs of their particular block.

Among the activities enjoyed this year were the annual picnic at South Park, an illustrated lecture on Aviation Engines by Mr. Cyril Donaldson, the Boilermakers' Brawl, talks on the History of Firearms by Mr. Raymond Biehler, District Steam Heating by Mr. Landis S. Smith of the Rochester Gas & Electric Corp., and Automatic Screw Machines by Mrs. L. D. Spense of the Brown and Sharpe Co. The Annual Banquet was held at the Roosevelt Apartments with Mr. Landis S. Smith as the speaker.
Organized in 1932, the Mica Club has grown to a membership which includes all day school students enrolled in the Chemical department. The Club is under the able guidance of Mr. Ralph H. Braden. Meetings have been held every two weeks with speakers present at frequent intervals to discuss products and processes of Rochester industries engaged in the chemical field.

Besides the business meetings the Mica Club has had two important social affairs of the '40-'41 semester consisting of a party in October at Clark Union, and a banquet in March at the Manhattan Restaurant.

With the year coming to a close, the officers are affiliating the Mica Club with the American Chemical Society to insure greater successes in the future for the Mechanics Institute Chemical Association. This last feat is hailed as a step not only for the benefits of its members, but also connects the Institute with the largest organization of its kind in the United States making a possible outlet for future students.
ALTHOUGH the "Pi" Club is the youngest and smallest organization in the Institute, it is among the most active. The club was organized in 1937 by the students of the Publishing and Printing Department and is affiliated with the National Student Graphic Arts Society.

Several social events were sponsored this year, including the annual Christmas party, outings, and a senior banquet. A softball team was formed which carried on active competition with members of other departments of the school.

The Club publishes and prints a monthly booklet edited by Louis Ruiz, known as the "Typographer". It has a circulation of 600, and is distributed to printers, schools, and press organizations throughout the United States.
THE PHOTO TECH CAMERA CLUB

Since Photo Techs live, eat, sleep, and practically breathe photography, it follows naturally a worthwhile addition to the already crowded daytime hours of the regular course is actively supported. The Camera Club is increasingly proving a tremendously valuable supplement to the school's course of study in photography, in presenting an organized channel for individual expression, practical experience in making and exhibiting pictures, and a chance for additional learning experience in variegated phases of photography.

This year has seen the addition of a weekly bulletin of news and articles contributed by members. The plan, of bringing well-known photographers from various parts of the United States to speak and demonstrate before the group, has been continued and developed. The monthly competitive exhibits hung in the school cafeteria have attracted more interest and support than ever before. Winning students are presented medals and have their names engraved on a trophy which remains in the school from year to year.

Finally, the year's activities are brought to a close in the spring with the Annual Banquet, at which the passing Seniors are feted.

Students in the retailing department have an opportunity to give vent to their executive and managing abilities in the Retailers' Association. The purpose of the organization is to further good fellowship among the retailers outside of school, and to further knowledge of retailing as a career by bringing speakers here at different times.

This year the Association has heard Marguerite Loos, distributive education supervisor of Ohio; Sally Franklin, a former student who is the cooking school commentator from Edwards; and Harold Woodworth, another former student and buyer of men's furnishings at Edwards.

In the fall, the Association sponsored a get-together for the purpose of introducing the freshmen to the upperclassmen. An annual affair of the Retailers' Association is the big picnic, held in May.
Early in September, twenty-three freshmen were pushed, pulled or carried through the halls of Bevier building on a bewildering cruise known as the annual Art League initiation. To the accompaniment of stern commands from upperclassmen, the group delivered a solemn oath of allegiance to Algy, patron saint of the Art League, and then dashed off to Cutali’s for a spaghetti dinner.

In October, the League sponsored a Spook Show in the Student Center, and in January, a sleighride, followed by dancing and refreshments, in Naas’ barn, at Scottsville.

In March, to weird chants and the mournful tones of a flute, the new skeleton, Ah-men, was christened. The League closed a very successful year with another of its famous cabin parties at Powder Mill Park.

The Art League is an organization which provides not only social functions, but also a Sketch night every Tuesday, for which various members pose in costume and offers a chance for self-expression to the students.
The Glee Club, an organization conducted for the purpose of furthering the enjoyment and interests of the student body socially as well as musically, has completed the year 1940-41 with a program filled with performances and entertainments for one of the largest group associations in the Institute.

The first highlight on the season's program was a welcome party. The Glee Club doors were swung open to the student body for the purpose of acquainting them with the Glee Club activities. All who wished to share in its functions were invited to become active members.
After two months of faithful rehearsals, the group sponsored its first public performance, the Glee Club Assembly. It was held in the First Presbyterian Church, and the student body was entertained by a program of Christmas songs and melodies.

Following the Christmas Assembly, the members held their annual Christmas Party in Clark Union. Gifts were exchanged by everyone present. Refreshments and group singing were enjoyed in the season's yuletide spirit.

The M. I. singers next sponsored a hay ride party at Scott's on Chili Road. After an enjoyable two hour ride, they returned to Scott's home where dancing was held and refreshments served.

The next event was a feature program of a combined nature. For the first time in the history of the school, the Glee Club and the M. I. Band presented to the public a joint concert in Eastman Hall. The Glee Club participated in the first half of the program, and featured singing consisting of folk songs, spirituals and popular songs by the chorus.

Bringing to a close the Glee Club activities for the school year, a banquet was held at the Normandie Apartments where the members celebrated a successful year.

We, the Glee Club of 1940-41, wish to see this success carried on through the years to come and at the same time hope that the musical performances of the Institute will be an outstanding, anticipated event.
During the past year the Gargoyles, the dramatic club, have had many interesting and profitable programs at their meetings.

As all theatre work is based upon speech, we first studied the voice and its control. Realizing the full need of make-up behind the footlights we spent several meetings learning the correct technique in applying the grease stick and lining pencil—creating many interesting characters.

Other programs consisted of general discussions of the psychology of audiences and the study of pantomime. Radio night was given an interesting turn when some of the members came to the meeting with original scripts.

During the year several plays were cast and practiced.

Our annual party was held at Clark Union and everybody enjoyed the hilarious games, dancing, cider and doughnuts.

We have an organized point system by which members are awarded the Gargoyles pin for outstanding activity.

The Gargoyles extend to all students a cordial invitation to attend the meetings that will be held next year.
INTERSORORITY COUNCIL

OFFICERS

Martha Lapham . . President
Margaret Linsin . Vice-President
Arvilla Pomeroy . . Treasurer
Natalie Cummings . . Secretary

MEMBERS

Jean M. Stampe . . Adviser
Bertha Thurber . . Counselor
Lena W. Karker . . Counselor
Margaret O. Jameson . Counselor
Margaret O. Jameson . Counselor

Intersorority Council, the uniting factor of the four sororities, is composed of a counselor and three representatives from each group. It is the governing agent over the individual sororities.

In September and October Intersorority held its annual evening receptions to help freshman girls to become acquainted with upperclassmen and with freshmen in other departments.

As in former years the Intersorority Ball was held at the Rochester Club on April 19. The Intersorority Scholarship Trophy was presented to the group maintaining the highest average for the past year.

This year a Journal explaining the sororities and their histories was drawn up to acquaint the freshmen with the activities and values of the various sororities before they pledge.

In May the 1941-42 officers were elected.

Each year the Council takes another step toward unison in social and business aspects.
Alpha Psi was organized in 1921 with thirteen charter members. The express purpose has been to promote friendship, scholarship, and fair play.

Social events of the season have included a highly successful rush party at the Edith Hale house, a formal pledge dinner at the Rochester Hotel, an informal gathering at the Frontenac Apartments, and a novel "penny party" at which the future was foretold for the sorority members. These happy predictions for the future include a most successful house party at Conesus Lake as a climax for the social season.

As a parting word to our Senior members we extend wishes for great success and incomparable achievements following their years of training at the Institute and their inspiring associations with sister members in Alpha Psi.

Alpha Psi was organized in 1921 with thirteen charter members. The express purpose has been to promote friendship, scholarship, and fair play.

Social events of the season have included a highly successful rush party at the Edith Hale house, a formal pledge dinner at the Rochester Hotel, an informal gathering at the Frontenac Apartments, and a novel "penny party" at which the future was foretold for the sorority members. These happy predictions for the future include a most successful house party at Conesus Lake as a climax for the social season.

As a parting word to our Senior members we extend wishes for great success and incomparable achievements following their years of training at the Institute and their inspiring associations with sister members in Alpha Psi.
Since its founding in 1921 by eight girls Delta Omicron has grown to a membership of thirty-eight and has continued to uphold its high ideals of scholarship and loyalty. During the year friendships are encouraged through social activities. This year such activities were buffet suppers, a Hallowe’en dance, a rush party and a pledge dinner dance. To climax the year a house party was held at the Karker Camp in Canada.
Phi Upsilon Phi, the oldest sorority in the Institute was organized in 1919. This sorority was founded on the basis of friendship and unity.

A Rush Dinner was held at Hotel Rochester in the form of a "coming of age" party in January. In February, Mrs. Stampe held a dinner for the active members at the Roosevelt Apartments. Later in February the Pledge Dinner was held at Rochester Club at which time fourteen girls were pledged.

As has always been the custom a picnic given by the new members for the upper-classmen and a House Party held Memorial Day week-end brought the school year to a glorious close.
Sigma Kappa Delta Sorority was founded in 1926 by nine charter members. It represents a great development of friendship and cooperation. The purpose of this organization is to build character, to establish a high scholastic standard in the student body of the Institute, and to bring into closer contact the girls of all departments, thus establishing a more friendly feeling.

This year the Sorority attempted a new form of rushing; namely, colonization, a method whereby girls with high qualities of leadership were pledged. Sigma Kappa Delta held its Rush Party at the home of Martha Lapham in Rush, N. Y. The freshmen were drafted, and lived army life for a night.
Since its organization at the Institute twenty-six years ago, Chi Delta Phi has been noted for its fine scholastic spirit and ability, its cooperation and participation in school activities, and its opportunities for increased friendship among students of the same and different departments.

The fraternity's membership has comfortably increased this year to a new high of thirty. As a result, increased and improved activities have consisted of two rush dinners, several bowling parties, the Interfraternity Fall Frolic, a successful dance party at Clark Union, many dinner meetings, and the concluding and high-lighting event of the year—the annual Spring Formal Dinner Dance on May 3 at Oak Hill Country Club.
Phi Sigma Phi, the oldest fraternity at the Institute, was organized in 1901 and has stood for brotherhood, high ideals, and scholarship ever since.

In 1937, Pi Kappa Gamma, Chi Epsilon Phi, and Phi Sigma Phi merged and formed the present Phi Sigma Phi fraternity.

Among the social events of this season were: The Interfraternity Ball, the pledge dinner at the Home Dining Room, numerous smokers, and several parties at Clark Union. On March 29, the highlight of the season, the Annual Dinner Dance was held at Oak Hill Country Club.
ATHLETICS

Sports at the Institute for the past year have placed their records high on the ladder of athletic success. In many cases the records show a gain over those in the past years.

Our basketball team turned in one of the best records in many years under the watchful eye of Coach Leo Fox. A good deal of difficulty was encountered when the time came to select the varsity because all of the men were rated very high as prospective tossers. Although many of last year’s first string men were graduated, several freshmen were quick to seize the chance to obtain a berth on the squad.

Our wrestling team under the careful guidance of Coach Pike not only won most of their matches but certain members of the team journeyed to Cleveland to represent the Institute in the Eighth Annual Interstate Invitational Championships. Three of last year’s most valuable men were graduating leaving the team greatly handicapped but freshmen were soon able to compete for the Institute.

A great deal of interest was taken in tennis by both men and women. Coach Toporcer instructed and picked a team which he hopes will win all matches to come. Following the constant increase in tennis, it is hoped that in the near future it may soon become one of the major sports at the Institute.

Swimming at the Rochester Natatorium and basketball at the Brick Church were two of the activities at the Institute enjoyed by women students.

Golf instruction for both men and women was provided during the winter months and was greeted with much anxiety and determination to develop swing, strokes, and ability to follow through. The annually increasing turnout of students interested in learning to play a good game of golf gives evidence that it may become one of our more important sports.

Riding is considered one of the most exciting sports at the Institute and is enjoyed by an increasing number of students each year. During the spring and fall, riding is enjoyed out-of-doors. What could be more exciting than to canter over the hills and through the woods early in the morning or late in the afternoon. Steak roasts and Cabin parties were held with many students enjoying themselves to the full extent. When winter set in, riding was carried indoors to the Marsh Road Riding Stables where they worked diligently to attain skill in horsemanship which they proudly demonstrated at the Annual Gymkhana in May.

Bowling began early in the fall, with one evening and two afternoons reserved at the Brick Church for Institute bowlers. Although no perfect games were bowled, each student agreed that he enjoyed bowling in friendly competition.

At the close of this year’s athletics and sporting activities we students believe that we have made great strides in sportsmanship.
The 1940-41 basketball team has turned in the best season since 1930, having won more games than we lost. Leo Fox, in his first season at the Institute, did a fine job; and, to show the fine spirit of the squad, the team presented Coach Fox with an Athletic Blanket at the award assembly.

Because most of last year's squad were unable to turn out for the team because of the pressure of their work, Coach Fox began the season with only four men who had had previous experience with M. I. teams: Frank Beaty, Roy Kelso, Charlie Walker, and Don Sweet. Frank "Fireman-save-my-child" Beaty was appointed as permanent co-captain, the other co-captaincy being rotated weekly. Beaty was outstanding throughout the year, not only for being the high-ranking scorer with 224 points, but also for his defensive work and for his exceptional "ball-hawking" under both baskets. It was a common sight to see Frank smash through the defense on a nice cut, fight his way to underneath the basket, and there recover the ball to pass out to a teammate or to score himself.

Kelso was used as a pivot man in the team's offensive system and was the "ball-handler" in most of the team's scoring plays. Ray had the best average from the foul line of any member on the team, the large number of shots which he collected from there being a tribute to his aggressiveness on rebounds. Charlie "The Wolf" Walker, although not as flashy a scorer as during his freshman year, played an exceptional passing game, and at the same time augmented his fine floor game with enough baskets to become second high scorer for the season with 115 points. If Charlie escapes the draft, he and Roy are expected to be the nucleus for next season's team. Two freshmen, "Long Jim" Andrews and Fred "I-Beat-off-the-Ladies" Martin rounded out the first five. Jim was outstanding for his ball handling and for his rebound work under either basket, and has well managed to score a good number of points for himself, being high scorer for the Institute in several games with a total of 114 points. Fred was usually given the very tough assignment of guarding the opponents' high scorer—a job which he accomplished in fine style, and at the same time managed to work very well into the team play as well as score himself. Don Sweet cavorted around the court in an imitable manner when called upon as a substitute on many occasions. Two more freshmen, "Smiling Ed" Connell and Russ "The Razor" Drews, became increasingly better as the season progressed with the result that for several of the last games they were supplanting the members of the starting five, and contributing most ably to the play of the team. Ed and Russ should be a useful addition to next year's aggregation.

This year, a reserve team was organized for the purpose of giving the members of the squad an opportunity to obtain some sorely needed experience. Several men from the reserve team should be able to make the varsity players hustle for their positions next year.

WRESTLING

Facing stronger opposition than at any time in recent years, the wrestling team of Rochester Athenaeum and Mechanics Institute chalked up a good record during the 1940-41 season by winning three meets, dropping three and tying one.

The wrestlers showed up well in all of the meets, and in most cases losses in individual bouts were close ones. New on the schedule were Kent State University and St. Lawrence University. Both schools had been dropped previously because they were considered too strong for the R. A. M. I. men.

Coach Ed Pike is optimistic about prospects for the coming season. Although four men will be lost through graduation, the squad as a whole will be more experienced. The reserve men are shaping up well and should replace the seniors without any serious difficulty.

Men who wrestled for the Blue and Grey for the last time this year are Captain Harry Lugert, who was defeated only once during regular meets, George Field, 121-pounder, Ben Saggese, heavyweight, and Raymond Hobson, reserve.

The Institute matmen competed at the eighth annual Interstate Invitational Championships at Cleveland. Although the team failed to take a first place, Lugert took a second place in the 155-pound class, Saggese was third in the heavyweight class, and Bob Renner placed fourth in the 175-pound spot.

A new organization, the band, was formed in the fall and is composed of both students and faculty members. An appropriation was made by the Student Council to cover rental of instruments, the purchase of music, and the hiring of a conductor. A present membership of thirty assembles every Wednesday night in the gym to play marches, light concert music and school songs. Early in the season the organization of the band was made official by the election of officers. A committee consisting of these officers and the conductor award letters to the band members for good attendance and improved instrumental performance.

During the indoor sports season, the band gave the school entertainment at all home played athletic competitions. In the spring the band with the Glee Club sponsored a concert. It gave a very good performance and played a lively session of overtures, novelties, marches and selections.

The band is very grateful to Mr. William Popowych for the organization has developed rapidly under his able supervision.
While the winter was in full swing the tennis fans of the Institute realized that the basic ideas and techniques should be clear in hand and mind before attempting to go on the court. Therefore, tennis practice started early in March in the school gym under the thorough instruction of William Toporcer, the well-known expert of the court. With the opening of the courts on Fitzhugh Street in the spring, the squads continued their practice out of doors.

Teams for both the boys and girls were picked and several matches were held with outside teams. It is hoped that the enthusiasm and interest shown in tennis will continue, and next year's students are cordially invited to join the present group of tennis fans.
This has been a bigger and better year for the pin and ball fans. Enthusiasm for bowling grew this year among both the boys, under the guidance of Mr. Duncan Seavey, and the girls, coached by Miss Eleanor Rehberg. Many new students at the game turned out in droves in the opening blocks of school, and have developed their skill to match and sometimes surpass the "veterans".

The Brick Church Institute alleys have been reserved one night and two afternoons a week for the Institute bowlers. High scores for the boys have hovered around 225 and the girls' scores have occasionally reached 150. Competition is always keen in the various groups, but they vie for skill and mastery of form as well as for high scores.

We hope to see more students in there knocking the pins over next year.
RIDING

EXECUTIVE COMMITTEE

Barbara Maulbetsch  Nick Christy
Martha Lorscheider  Lloyd Swanson
Jack DeLelys  Clayton Scharping
Bob Ripple  Miss Dorothea Fritz, Faculty Adviser

The Riding Club started out with a bang early in the fall with one of its monthly social functions. Late in September after riding we held a picnic on Cobb’s Hill. We had lots of fun singing songs around the camp fire. October found us on a Hayride in Scottsville and our only complaint was of cramped legs. In November we were all dressed like farmers for the Barn Dance at Elser’s Barn, Barbara Maulbetsch being the farmer hostess. During the cold month of December we tried to keep warm with a Cabin Party at Powder Mill. A Sweater Hop at Clark Union was the March event. Clayton Sharping was chairman of our Annual Banquet held at the Old Farm. Our final function of the year was a Horse Show held at the Marsh Road Riding Stables. After the show a party was held for members and their dates. We give all the credit of managing the Horse Show to Virgil Zetterlind. The Horse Show was the climax of the year’s events.

In the fall we started riding at the Culver Road Armory but due to defense measures we were compelled to find a new place. Now you’ll find us riding at the Marsh Road Riding Stables. Some of our rides were at East Bloomfield. After many months of riding we have started to jump and find it great sport. Some of the most pleasant experiences were the long rides on the bridle trails around Pittsford.
REFLECTIONS of the many good times we have had while here at the Institute make us wish that they could be repeated again. We have all worked hard in the classrooms and laboratories endeavoring to prepare ourselves for careers. But at the same time we have enjoyed many social functions which will always be remembered. They have been just as much a part of our education as any other factor.

We have attended dances, athletic matches and other outside events. Many of us have participated in inter-department sports, such as softball and touch football. Friendships have been formed which will never be broken. Clark Union has afforded us a place to meet, relax, and enjoy our school life even more. All these factors have combined themselves to make this year never to be forgotten.

The Ramikin herewith presents pictorially some of the happenings which have made this year one of the happiest.
CALENDAR 1940-1941

ALMA MATER

O, Alma Mater, day by day
We strive to hold thine honor bright,
And pledge anew our loyalty,
Defend thy name with all our might.

We rise in gratitude to thee
For sweet the message thou hast taught,
A message crowned with love and pow'r,
Resplendent through thy service wrought.

Thy noble founders heard the cry
That surges o'er the world to-day,
Their dauntless spirit sends us forth,
That we their precepts may obey.
