CAMPUS '68
Frosh Daze
Bonfire
Student Life
Spring Weekend
Miss RIT

Dinah Hebert from Rocky River, Ohio, graduated from the School of Retailing in 1967.

Previously, Dinah was president of Alpha Xi Delta and Panhellenic Council. She also served on Student Senate, The Women's Residence Halls Judicial Board and as social chairman of Panhellenic Council.

Theta Xi honored Dinah as their 1967 Sweetheart.

In addition, Dinah was enrolled as an honorary member of Alpha Sigma Lambda and Eta Mu Pi. She has also appeared in Who's Who in American Colleges and Universities.
Mr. Campus

David Jones from Warren, Pennsylvania, was a brother of Phi Sigma Kappa fraternity.

He graduated from the School of Business Administration in 1967 and was captain for his department's Pacesetters campaign.

Dave was the 1967 Spring Weekend Chairman and the 1966 Frosh Daze co-chairman.

He was also a member of the Advocate staff.
Winter Concert
Convocation
From Communitas To Academe

From dryrot fluting and sunsets sooted gold,
from sirensmear beneath the shuddering swifts,
from tiger tracks where prejudice daily stalks,
we leave communitas for academe.

From Clark snubnosing the wind, Bevier's square crown,
from domino Library and prim, gray Crafts,
from NRH and Eastman beside the lethal rush,
we leave communitas for academe.

From nights of distrust under floodlight and badge,
from Spring Weekend's baroque and manic mache',
from off-key serenades in empty streets,
we leave communitas for academe.

We leave communitas for academe;
in academe, what new communitas?

Robert Koch
COLLEGES AND SENIORS
President's Message

During the years you have been students at Rochester Institute of Technology, you have had opportunity to question, to challenge, to analyze for yourself the greatesses and shortcomings of the world you now enter. You may find that this new life will not be too different from that you have known as a student. There will still be the challenges of new assignments and the satisfaction of completing them. There will still be the excitement of new ideas and experiences. You will still know the feeling of pride that comes as you advance in your career.

In short, there will be time for continued growth. The person you have become because of your experiences at R.I.T. will gradually change and develop as you are confronted with new situations, new ideas, new people, new responsibilities.

R.I.T. is justifiably proud of its graduates. Each of their achievements reflects upon the Institute as do yours. The faculty and staff join me in extending to you congratulations on what you have already accomplished, and our most sincere best wishes for a career and life enriched by tradition and the promise of the future.

Sincerely,

Mark Ellingson
President

ORGANIZATIONS
Techmila Staff

(Below) Ann Richardson, Gerry Segelman; (left) Bruce Smith, Bruce Hack. (Opposite, above) Joel Freid, Beth Hooghkirk; (below) Mr. R. Webster, Skip Blumenthal.
"Friday? What do you mean it's Friday? I've still got fifteen pages of copy to type up!"

"$%#!, you're sitting on the negatives for the page one photos!"

"Stop the presses? What kind of talk is that?"

Things can get fairly hectic when over 4,000 people depend on you to get them their Reporter on time. But, the staff loves it—they've got to, they're newspapermen.

Each week, the editors, photographers, artists, reporters, the publisher, compositors, and many others, labor at Herculean tasks to ensure that the Reporter will be on the stands each and every Friday—and, that it will be worth reading.

"Why?" This question is seldom asked.

But, "Let's do it even better next week!" that's a slogan.
Symposium

Horace once said, "A picture is a poem without words." Carlyle added, years later, "Poetry, therefore, we will call Musical Thought."

Symposium, RIT's creative arts magazine, is dedicated solely to the visual and literary culture present on our own campus. The "Musical Thought" that emits from each of us, and the picture-poems created here are our material. Our finished book is a means of intimate communication for anyone interested in the arts. As M. P. Moussorgsky said, "Art is not an end in itself, but a means of addressing humanity." By uniting with the student body, the Symposium staff strives to fulfill this goal.
WITR

WITR News is a new but rapidly growing branch of R.I.T.'s radio station, WITR. It gathers, edits, and produces world and national news, state and local news, sports, weather information, and complete campus news coverage for immediate broadcast to the R.I.T. community. WITR News also serves as the information center during such campus activities as Frosh Daze and Spring Weekend.

Staff members learn and develop techniques of “electronic journalism” as well as expanding their knowledge of one of the most immediate of news mediums.
De Molay Club

The R. I. T. De Molay Club is a group of students who wish to continue in or enter into a closely knit fellowship with common interests, and who would like to share mutually profitable social activities and work projects for the benefit of each member as well as the entire student body.

Activities for the year included the presentation of speakers, participation in various organizational activities on campus and in the community, as well as a bowling party and work parties throughout the school year.

The informal meetings and get togethers provide a relaxed atmosphere for developing lasting friends with a minimum amount of time spent away from the many pressures of campus life.
The Student Christian Movement has become known as the Protestant group which spends its time helping others while having fun doing it. Last year we started The Boswell Coffee House for RIT students. The atmosphere is that of a normal coffee house, with folk music or jazz playing almost constantly. The entertainment is either from live musical groups, or from one of the finest short film lists ever made up in this area.

The SCM also sponsors retreats for our students at least one of which is a camp-out. On these retreats, issues that are pertinent to modern students are discussed. Some of the other programs that the SCM sponsors in connection with the Chaplains' office are such things as drug conferences, the War and Peace seminar, and sex discussions. All of these are open to all RIT students.
Hillel is a religious, social, and cultural organization devoted to helping all the students of the Jewish faith to enjoy a rewarding college life at R.I.T. The Hillel Director, Rabbi Joseph H. Levine, and Mr. Julius Schwartz of Genesee Lodge B'nai B'rith help in an advisory capacity.

Religious services, study groups, and Oneg Shabbats provide a basis for the cultural program. Social life revolves around parties and dances with other Hillel groups in the vicinity. Other events include conventions, home hospitality, and bagels and lox breakfasts.

Officers: Bruce Alan Hack, president; Jon Roberts, vice-president; and Edith Berkov, secretary-treasurer are the hub of Hillel leadership.
Newman Apostolate

With the establishment of R.I.T. as an "exempt chaplaincy" by Bishop Fulton J. Sheen, the Roman Catholic community at the Institute takes on the nature of a "Campus Parish," with all the facilities ordinarily connected with a well-run parish, and then some.

Within the structure of the community, the Newman Apostolate has the nature of a service organization, whose only purpose is in aiding the smooth functioning of the Parish. This it does through committees directed towards the Liturgy and Sacraments, the Social and Service Apostolate, the Educational and Theological Apostolate, and the maintenance of the Boswell Coffee House, which is run jointly, as an ecumenical endeavor, with the Student Christian Movement.

Sister Theresa Daniel and Father Gerald Appelby serve as Chaplains to the Parish and advisors to the Apostolate.
Inter-Varsity Christian Fellowship, a nation-wide organization, is a group of students who individually, and collectively, seek to present Christianity to others on the college campus, and to promote a greater understanding of the Bible.

The basic activities of IVCF are Bible studies, prayer meetings, lecture discussions on various topics of interest, as well as social activities. Periodically, retreats and Bible study courses are held at different locations in this area. There are fall, winter, and spring retreats which not only provide fellowship with the students from other colleges and universities, but also provide a time for intensive Bible studies, discussion, and lectures on pertinent topics.
The International Student Fellowship was formed from an interest and a need. The foreign student was in need of information on where to go and what services were available to him. This meant having friends who could help him. The interest came from the American student who not only saw the need and wanted to help, but was also interested in learning from and understanding the foreign student.

Orientation week is most important for the foreign student. It is during this week that he meets other members of the Fellowship at a special orientation program, is introduced to faculty members, and then the group's advisor, Robert Koch. One student remarked that without this program he would never have known that other courses besides printing were open to him, or that the faculty members could be so helpful.

A skating party at the R.I.T. ice rink brought a lot of laughs and bruises, since it was the first time on ice for many. Another activity that was very rewarding was a "Cook-In" at Dr. Koch's house, at which every one made or brought a sample of a native dish, for example; sukiyaki and pumpkin pie. Other activities we have had in the past are field trips to Niagara Falls, and special open parties centered around students from one country. Included were guest speakers, movies, and discussions.
Frosh Council

"It shall be the purpose of the Freshmen Student Council to promote organization and spirit in the Freshmen Class, to train members in leadership, and to provide representation of the Freshmen Class to the Student Body."

The Frosh Council is an orientation program in student government. Freshmen are introduced to parliamentary procedure and the mechanics of self-government. Council officers and representatives have the opportunity, on the basis of their training, to become leaders of the Student Association.
Forensic Society

The RIT Forensic Society, in its thirteenth year of intercollegiate debate and oratory, participated in more than twenty-five intercollegiate tournaments and debate activities this year. Debated was the proposition—Resolved: "That the Federal Government should guarantee a minimum cash income to all citizens."

The members of the Forensic Society have found the activities very beneficial to them as individuals. It has taught them how to argue logically, to study the problem thoroughly, to reach solid conclusions rapidly, and most of all, to do these in a spirit of friendly competition.

The officers of the Society are: Ray Unger, president; Cynthia Kussmaul, vice-president; and Beverley Estes, secretary-treasurer. Professor Joseph E. Fitzpatrick is the advisor.
Decem Jani

"The main purpose of Decem Jani is to investigate student problems and to propose measures to correct these problems. Most of the Board's work is of long-range nature, often taking years to carry through to completion. The ten students and administrative advisors on the Board do this work in the best interest of the student.

Often the students seem to picture Decem Jani as a cloak and dagger organization because all members of the Board are anonymous except the Chairman and Secretary. This anonymity is employed to ensure that the views of the Board are not influenced by constant pressure from individuals or groups. The views expressed at the meetings are, therefore, those of typical students.

Membership to the Board is made by the Selection Committee after the student has shown an interest in working towards the best interests of the student body.

The members who graduated last year are Ralph Atkin, Robert Hankey, Ronald Antos, Edward Lederer, and John Patterson.

J. Naud, chairman; S. Whitaker, secretary
The Student Court, in its third year, has been the highest student disciplinary body on campus. Although a part of the R.I.T. student government, it functions independently of the Student Association.

The Court has the power to assume either appellate or original jurisdiction in any case involving a member of the Student Association. It is further empowered to hear cases among or between organizations, or to refer cases not affecting the entire student body to the proper authority.

The Court is composed of six student justices and one faculty justice; the members serve for a period of a year. The Chairman for this year was Michael Foster.

The Court is an important element of the Student Council and came about through the efforts of students over a period of two years.
Student Association

Under the constitution of the Student Association, the Student Council is the governing body for all students and is led this year by the Student Association President, Paul Smith.

The Student Association is divided into three parts: the Student Senate, President's Cabinet, and the Student Court.

The President's Cabinet, consisting of seven directors, is presided over by the President of the Student Association. It is the responsibility of the Cabinet to perform the administrative work of the Association and to implement and enforce the legislation of the Senate.

The Vice-President of the Student Association, Donald Hanson, presides over the meetings of the Senate. Each member in the Student Association is represented in Senate by a Departmental Senator. The number of Senators from each department is computed by the number of students in each department, utilizing a base figure of one Senator per 100 students. Major organizations—M.R.H.A., W.R.H.A., I.F.C., Panhellenic Council and R.A.A.—are also represented in the Senate. The Senate controls the policies and programs of the Council, and determines expenditures of the budget which is usually over seventy thousand dollars.
"We, the students of the Rochester Institute of Technology, desiring to promote better recreational, social, cultural, and educational services for the college community, do hereby establish the College Union of the Rochester Institute of Technology by the authority granted us from the Board of Trustees of the Institute."

This statement is the preamble of the College Union Constitution, and it expresses the desire of the College Union to promote interest in the Rochester Institute of Technology; to bring about a greater spirit, unity, and co-operation among all the members of the Rochester Institute of Technology community; to encourage in students the development of leadership and skills through the active participation in the Union; to provide the best possible recreational programs and facilities; and to achieve a position as a respected contributor to the establishment and maintenance of a high educational, social, and cultural standard for the Institute.

The management and control of the affairs and functions of the Rochester Institute of Technology College Union shall be vested in the Director of the Union and Union Board of Directors. The Union Board includes ten students and four faculty/staff members.

The Union Board sponsors popular concerts, cultural artists concerts, and lectures, recreational games tournaments, the Talisman Film Festival, the C.U. Showtime, and programs for special interest groups.
Drama Guild

"Like other groups, 1967-1968 was a year of waiting for the RIT drama Guild. The new theatre in the College Union will bring many changes in program for the Guild. Until this theatre is ready, the Drama Guild is producing a movie "Starfish" based on a play by Dane Gordon, College of General Studies. It is directed by Richard Sebast, A & D, and Gary Webb, A & D. A Variety show is being toured and workshops in the technical aspects of theatre are being offered to RIT and the community.

The Brute by Chekov toured area coffee houses, homes for the aged, hospitals, etc. The Land of the Dragon, a Chinese fantasy for children had ten productions last year including a showing at the New York Theatre Festival in Corning, New York in April 1967.
Glee Club

The R.I.T. Glee Club is a performing ensemble serving the school and the community. It is composed of fifty select voices under the direction of Mr. Brian Ellard, a graduate student from the Eastman School of Music.

The membership is chosen by tryouts held at the beginning of each quarter. The club's activities during the year include: Performing at various school functions and assemblies; two major concerts at Christmas and Spring; a bus trip to Alfred, New York, for the Chorus Competition; and parties for members. This year the Glee Club participated in R.I.T. Day at the Greece Town Mall.

The officers for the year were: Clint Coles, President; Tom Boyce, Vice-President; Donna Williams, Secretary; Jon Roberts, Business Manager; Ed Coyle, Publicity Chairman; Carole Warner, Social Chairman; Brian Kelly, Historian; Bob Rogers, Librarian; and Dick Von Kampen, Recording Engineer.
The RIT CHESS CLUB provides a means for interested chess players to meet in order to improve their game and enjoy friendly competition. During meetings, chess games are analyzed, and instruction is provided by our advisor, Dr. Julian Salisnjak, and other expert players.

Members of the chess club have an opportunity to try to be on the RIT Chess Team which will be participating in the Regional Chess Tournament during the winter quarter. Other activities consist of a campus wide open tournament, and a Student-Faculty Tournament held during the spring.

The officers of the RIT Chess Club are: Donald Palermo, president; Robert Mericsko, vice-president; Ronald Loiaicono, secretary-treasurer; and Dr. Julian Salisnjak, advisor.
Licensed amateur operators that are members of the ARA can talk over the air to spread the name of RIT around the world. The club operates under the call letters of K2GXT.

Last summer during the Radio Amateurs Field Day, the club demonstrated its ability to provide the community with emergency communication for such situations as a widespread blackout or power failure. Continuous 24 hour operation was sustained from a well equipped tent pitched near the new RIT campus picnic sight. A wire antenna system was engineered and erected around natural existing structures while all operating power was obtained from a gasoline engine driven by a portable generator.

Members of the student body interested in becoming "Hams," may benefit from the club's periodically scheduled Morse code and radio theory classes. From these activities ARA hams learn by helping others.
The purpose of IEEE is to acquaint members with the developments in Electrical Engineering and other related fields. It, also, strives to maintain high technical and ethical standards among its members. The Student Branch has as its purpose the fostering of qualities needed by the engineer which are not fully cultivated in the classroom. The Branch provides an organization in which the technical developments and ideas of the student can be recognized.

To fulfill its purpose, the Student Branch has a program which includes guest speakers, panel discussions, field trips, and a Student Papers Contest. In the past, we have toured such places as: WROC, the local radio and T.V. station; Brookwood, RG&E's nuclear power project; and the Antique Radio Museum in Holcomb, New York. We have, also, had lectures on computers, lasers, very-low frequency propagation, etc. The year's activities are concluded with the annual banquet.
The "AMERICAN SOCIETY OF TOOL AND MANUFACTURING ENGINEERS" is geared to stimulate nonacademic interest in the field of mechanical engineering. Student chapter #18 at RIT accomplishes this through the varied programs open to the students. These programs consist of panel discussions, lectures, and plant tours. The senior chapter in Rochester through their cooperation and guidance lend assistance in the realization of our goals.

Membership entitles the student to the benefits of the "ASTME STUDENT QUARTERLY," a magazine published by the national organization in the interest of student members; fellowship with other students outside the classroom, and other activities, including the annual steak roast in May.

The exposure to a national professional organization and the demands of leadership in this organization is of great value to future engineers.
The 1620 Computer Club was formed during the 1965-66 school year. Its primary purpose is to inform interested members about the techniques of computer programming and the impact computers have made on today's civilization.

Among the achievements of the Computer Club to date are: production of the first computer-printed master copy for the Student Directory; providing for other organizations the first activity-interest contact lists; and developing religious preference lists for use by the campus religious organizations.
The National Society of Interior Designers strives to promote a professional interest in interior design by expanding upon the formal education and training acquired in the classrooms through a richly varied program of activities.

Social events are planned to include visits to restaurants, theatres, and other places noted for their interior design and architecture. At the organization's speaker functions, the members are able to hear from and question interior designers, architects, and other professionals related to the field.

Special highlights of this year's activity included a trip to Expo '67, the Christmas Boutique of items designed by the members, the three-day Interior Design Seminar, and the annual Designer's Tour of New York City.

The Society also sponsors a yearly design competition among the members and awards a scholarship to the winner.

This year's officers were: Carole Walden, president; Ruth Ann LaMartina, vice-president; Mary Vella, secretary; Sherilyn Whitlock, treasurer. Faculty advisor is Mr. Joseph Schuler of the School of Retailing.
The Art School Art Society is a social and intellectual organization devoted to providing an opportunity for an exchange of ideas between people interested in the arts. One of its main purposes is to promote and encourage a deeper understanding of the interrelated art media—painting, music, photography—by its members, by other students at Rochester Institute of Technology, and by the community when possible.

As a group, ASAS activities involve not only meetings, but field trips to various exhibits, guest speakers, and informal discussions. In the past, the Art School Art Society has had a number of exhibits of work by its members in banks, libraries, and various other places of business in the area.
SMPTe

The R.I.T. Chapter of the Society of Motion Pictures and Television Engineers presents to students an opportunity to further their knowledge in the general field of Photographic Science. A series of lectures, supplemented by movies, is held each year to attain this goal. Membership in the R.I.T. Chapter includes national membership and also a subscription to the national journal. The highlights of the year is the presentation of award winning senior research papers in the technical photographic field. This event draws interest among those active in the field of photographic science and engineering.
The goal of the Photographic Society is to enrich the education of the students in the vastly complex field of Photography, through the encouragement of an all encompassing environment. In this way, each member is directly involved with making the Society a meaningful investment, as it aims for the cultural as well as intellectual enrichment. In order to enhance this enrichment of its body, it provides a vast curriculum of presentations, exhibitions, lectures, darkroom privileges, a banquet with guest speaker and individual competition within the Society.
A cheerleader leads the shouts of encouragement, approval, or congratulations. Why do we continue cheering when spectator participation is far from great? We have the best reason of all. We admire our teams and respect every individual who has the initiative to go out and try to bring another victory to R.I.T. We cheer for the teams to encourage them, and to show our approval.

This year's varsity cheerleaders are: Nancy Sypnier, captain; Elaine Feehan, assistant captain; Jan Frum; Patty Vona; Linda Edwards; Allison Kelly; and Karen Lindsley. The alternates are Lonette Danitz, Donna Carragher, Karen Gates, and Jan Hayward.
Ski Club held a mountain climb and a cabin party early in the year. The first trip was to Turin, New York and the second to Vermont. A raffle was held for raising money, which helped to sponsor day ski trips to surrounding areas. During the Spring Quarter, the club entered a booth in the Spring Weekend activities. Also, movies and a ski demonstration were held during the regular meetings to add interest.

The Ski Team represented RIT in meets throughout the Northeast.
Pi Club

Pi Club, an organization of printing students, is one of the largest organizations on campus. The club's purposes are to promote fellowship among students throughout the School of Printing, provide the students with additional knowledge of printing and allied industries, and to keep the student abreast with the technological advances which are continuously occurring in the industry.

These three purposes are accomplished by monthly club meetings which include guest speakers from local printing establishments, and motion pictures dealing with different aspects of printing. In addition to regular monthly meetings, the club takes field trips to businesses in the surrounding area. Early in the school year, the Pi Club went to Hammermill Paper Company in Erie, Pennsylvania, where the members saw how paper is made.

The officers this year are: Roger Linde, president; Ronald Russell, vice-president; Steve Webendorfer, secretary; Richard Todd, treasurer; Robert Wislocky, education chairman; Tim Molaard, social chairman; Paul Kwiecinski, publicity chairman. Faculty advisor is Mr. Paul McKinnon.
Rifle and Pistol Club

The RIT Rifle and Pistol Club provides interested students with an opportunity to either learn to shoot or to keep in practice (for the more experienced). In addition, the Club hosts an annual “Turkey Shoot” in the fall and a “Ham Shoot” in the spring.

The Club provides all members with the use of Club-owned firearms. Members practice at the Army Reserve Range on Friday evenings.

Club advisor is James D. Richardson of the Physics Department.
Student Wives'

The Student Wives' Association was formed in 1960 for the wives of full-time day students. The goal of the organization is to promote friendliness, social fellowship, and a feeling of being part of the school. Student Wives work to achieve these ends in many ways. A business meeting is held each month, followed by a planned program with refreshments. In addition, special social events are sponsored throughout the year for married couples.

Upon their husbands' graduation, members receive their own special degree "PHT"—Putting Hubby Through. Children born while their fathers are still in school receive the "Honorary Citizen of R.I.T." citation.

The officers of Student Wives for this year are: Roxanne Meehan, president; Jean Morley, vice-president; Jane Chevrier, Secretary; and Pat MacDonald, treasurer.
Scuba Club

The RIT Scuba Club offers an opportunity to its members that is unmatched by any organization on campus. Through the combined efforts of the Scuba Club and the YMCA, an intense, highly professional, certified training program is offered to any interested member of the student body.

This year, in a financial effort to expand the club's assets and the general diving program, the club held their "First Underwater Blast" in the Ritter-Clark gym. The club, also, offers a variety of diving films, is a member of the Genesee Underwater Council, and weather permitting, conducts "group dives" to nearby lakes and flooded quarries in the springtime. For many members this "group dive" offers the first diving experience in open waters and is the consummation of ten weeks of rigorous conditioning and testing.

Officers are: Dick Kozowck, president; Doug Laughton, vice-president; Wayne Pesuit, treasurer; and Frank Silbert, dive coordinator.
The R.I.T. Sports Car Club is composed of people who believe that the automobile is more than a means of transportation. It is open to anyone, even if he doesn’t own a car.

This year, our second year in existence, we have about forty members. They participate in and organize rallies and gymkhanas. The club meetings feature speakers or films or rallies, gymkhanas, and racing.

One of the early events this year, was the MINI PRIX LXVII, a well attended intercollegiate rally.

The R.I.T. Sports Car Club presents a well rounded program of motoring events for the membership, the school, and the community.
Alumni Association

The R.I.T. Alumni Association for over fifty years has provided the opportunity for alumni to continue their interest in the Institute, to maintain contacts with classmates, and to advance the prestige of the Institute through their alumni activities.

All graduates are automatically members of the Association. Governed by an Executive Committee elected by the entire membership, the Association promotes programs of value to both the alumnus and to the Institute. Regional clubs are active in various cities.
The Beatles

Yesterday
And Today
GREEKS
Delta Lambda Epsilon is the professional photographic fraternity with Alpha Chapter headquarters at R.I.T. The Greek name is derived from the abbreviation of the terms D Log E, which are the coordinates of the graphical representation of the characteristics curve of a photographic emulsion.

Each year the freshmen photographic students are introduced to the school and the community through the fraternity Frosh Daze programs, which are highlighted by the annual Eastman House Open House.

The Fraternity strives to advance the standards of the brothers and to help the students in the school through its program of lectures and demonstrations by noted individuals in the field of photography. The lecture series is culminated each year with the annual Brehm Memorial Lecture, which features an internationally prominent individual in the photographic field.
Gamma Epsilon Tau

This organization's name is from the ancient Greek language. Gamma means letter, literature, or alphabet, Epsilon, science or knowledge, Tau, art or craft... hence, "the science or knowledge of the art and craft of letters."

Since Zeta chapter's beginning in 1955 at the Institute, the brothers have strived to further the Graphic Arts as well as to broaden the individual through a never-ending search for greater knowledge. In this age of rapid technical development, the fraternity has tried to keep pace through educational meetings, publications, and symposiums.

A 3.00 grade point average has to be maintained in order to qualify for membership into the fraternity.

Delta Sigma Pi

Socially and professionally representing the School of Business at R.I.T., Delta Sigma Pi is the professional International fraternity with the purpose of furthering ethics and science in Business Administration. Open professional events are held on such topics as estate planning, salesmanship, personnel recruiting, etc. The Brothers maintain a vigorous social schedule including participation in Spring Weekend and the annual "Rose of Delta Sig" dance.

The Fraternity has enjoyed a prosperous year with a great increase in membership, and is looking forward to expanding both its membership and its scope of activities during the coming year.
Phi Gamma Nu

The Alpha Lambda Chapter of Phi Gamma Nu, the National Professional Sorority in the field of business and commerce, is the newest sorority on the R.I.T. campus.

The purpose of Phi Gamma Nu is to encourage academic study and high scholarship, to promote participation in school activities, to increase professional competency and achievement, and to further a high standard of commercial ethics and culture.

A unique part of our program consists of our professional meetings whereby both men and women, holding key positions in the world of business from the Rochester area, come and discuss future career opportunities in their respective fields.

We also hold an annual tea during Spring Quarter for all the incoming Freshman women enrolled in the College of Business.
Alpha Sigma Lambda

The honorary fraternity Alpha Sigma Lambda was formed in the Spring of 1964. The initials A.S.L. symbolize Activities, Scholarship, and Leadership, the guiding principles of the fraternity.

Alpha Sigma Lambda exists for two purposes. First, to encourage students to aspire to the goals of participation in activities, scholastic excellence, and responsible leadership; second, to grant recognition to those students who meet the standards and qualifications for membership.

Alpha Sigma Lambda has continued, since its founding, to recognize campus leadership.
Epsilon Mu Honor Society

Membership in Epsilon Mu is open to outstanding students in the College of Applied Science. Epsilon Mu encourages academic excellence in the College of Applied Science by offering a tutoring service to students and by acknowledging a student's achievements through membership in Epsilon Mu.

Epsilon Mu, however, requires more than academic excellence of its members. Members are urged to become "good citizens" both of the R.I.T. community, and after graduation, the community in which they reside. Epsilon Mu members are urged to become involved in their community.

Epsilon Mu feels that a person's most honored possession is his integrity, and it is our goal to promote this ideal among the rest of the engineering student body.
DSR-TKA is the National Honorary Forensic Fraternity on the RIT campus which supports the idea of responsible speech and public speaking as basic necessities in a free society. By improving one's ability to communicate, he may look forward to leading a successful college and professional career, because regardless of the level one achieves, effective communications is always required.

DSR-TKA hosts a yearly High School Debate Tournament, allowing state wide high school debates a chance to participate and learn through the process of debating on a college campus. This is one of the educational aspects of the yearly on and off campus DSR-TKA program.

Requirements for becoming a member of DSR-TKA are a two year membership in Intercollegiate debate and maintenance of a position in the upper 35% of your class.
In 1960, the School of Retailing became the home of the Omicron Chapter of the Phi Beta Kappa of Retailing, Eta Mu Pi. The purpose of this honorary society is to promote ethics and science in the field of Retailing.

Requirements for an invitation to membership include a cumulative Grade Point Average of 3.0; 65 quarter credit hours; 35 of which must be in Retailing courses; and 100 hours of retail work experience.

Members are inducted quarterly, with a formal closed induction banquet in the Spring. At this social event, an honorary member is inducted who has shown outstanding leadership in the dynamic field of Retailing. The honorary member for the year 1967 is William R. Thayer, Group Manager for the J. C. Penney Company.
Since its charter was granted in 1966, Beta Sigma Chapter of Alpha Chi Sigma, National Chemistry Fraternity, has endeavored to provide social activities, professional contacts, and fraternal spirit for each of its members.

This past year, members of Alpha Chi Sigma have participated in such activities as Spring Weekend, Interprofessional Fraternity softball and football, safety programs, and professional lectures and dinner meetings. Beta Sigma is also circulation manager of the American Chemical Society journal, CHEMunications. These and other functions provide opportunities for forming life-long friendships and broadening the professional knowledge of the members.

The Brothers of Beta Sigma, bound together by ties of friendship and profession, are proud to be identified with Alpha Chi Sigma as men of worthy ideals and capabilities.
Panhellenic Council

College Panhellenic Council was initiated in September of 1965, and is the governing body for the two national sororities, Alpha Sigma Alpha and Alpha Xi Delta. Panhellenic Council strives to obtain harmonious internal relations between the two sororities. The Council sets high ideals of scholarship and ethics for the sororities to follow. Our goals are to achieve sorority unification and campus participation, and in the final outcome, stronger sisterhoods on campus.

Special events of the year included Greek Weekend, Panhellenic Tea, Greek Songfest, and Spring Weekend, among other cultural and social events.

The Council's officers are: Marilyn MacGregor, president; Janet Camelio, vice-president; Cornelia Zyerveld, secretary; and Lisa Dunn, treasurer. Advisor of Panhellenic Council is the Dean of Women, Miss Deanne Molinari.

J. Camelio L. Dunn K. Foss M. Kretchmer H. Sundstrom
R. Ennocenti K. Kelly M. MacGregor C. Zyerveld
Interfraternity Council

Interfraternity Council is the co-ordinating body of the fraternities on campus. Representation consists of the respective presidents of each fraternity.

IFC promotes competition between fraternities, awarding trophies in such activities as football, volleyball, bowling, basketball, and softball.

Each year the coveted Scholarship Trophy is awarded to the fraternity with the highest grade-point average for that year.

This year IFC has been under the leadership of the following men: Ronald Antos, president; James Hopkins, vice-president; Joe Green, secretary-treasurer; Charles Holden, public relations; Barry Goldfarb, athletics; and Tom Strader, advisor.
One time Delta Omicron founded in 1921, and now Gamma Iota Chapter of Alpha Sigma Alpha since 1964, we have entered the 1967-68 year with true Campus (New and Old) spirit.

We have grown through the leadership and guidance of many beloved members too numerous to mention. Through continuous efforts in rushing, pledge training, and alumnae activity, we have stimulated our growth and progress.

Our social events include our dinner dance, joint parties with many of the fraternities, and participation in Greek and Campus events such as the Toga Party and Greek Songfest, and Spring Weekend.

We also participate in the Red Cross Swimming Program and the Campus Blood Drive.

Our services have increased, and our members, true to the teachings of Alpha Sigma Alpha, have brought distinction to our sorority which we will take with us to the New Campus and the very first sorority house in the history of Gamma Iota Chapter.
Alpha Xi Delta

Proudly stands the gold,
Proudly stands the blue,
Proudly stand the spirit,
Of sisters kind and true.

This is the song of the girls of Alpha Xi Delta Sorority who proudly wear the quill, their symbol of truth, friendship, and justice. Founded upon the ideals of leadership, character development, and scholarship, the sorority provides a source of life-long ties among its members, ties that last beyond the college years.

The Delta Lambdas are active throughout the year within sorority and around campus. Some of this year’s highlights include Greek Week, the Greek Songfest, Spring Weekend, “Goodie Bag” Day, as well as work in various Red Cross programs and volunteer programs at the Veteran’s Hospital at Canandaigua.

Alpha Epsilon Pi

On March 5, 1965, a group of eleven students assembled to hold their first meeting of the local Rho Iota Fraternity. Rho Iota was founded upon the ideals of Brotherhood which were incorporated in the signposts of Alpha Epsilon Pi. Persistence, honesty, mutual helpfulness, faith and humility were the ideals that these men looked up to. On November 12, 1966, Rho Iota colony received the status of a chapter from the Alpha Epsilon Pi National.

Alpha Epsilon Pi offers the unity of brotherhood, friendship, and participation in the fraternity life at R.I.T. Two of AEPi's goals are the advancement of the individuality of each member, and their sense of belonging. We are extremely concerned with the academic achievements of our brothers and do our utmost to promote the intellectual growth of our members.

Aside from being active in all school and IFC events, AEPI presented the Turtles during the Spring of 1967. This event became the highlight of R.I.T.'s social calendar. In accordance with our social policy, AEPI presented another popular Rock and Roll group during the Spring of 1968. We also held our Second Annual Home Run Derby.

This past year has been one of growth. Since its founding, our Brotherhood has grown in size over 300 percent. Our physical growth, however, is not our greatest accomplishment, nor is it our goal. The growth which we recognize as our zenith is that of knowledge, devotion, and experience. This is what truly separates us from the average fraternity, and makes us a great one.
Phi Kappa Tau

Gamma Nu Chapter of the Phi Kappa Tau Fraternity can most certainly be called an ideal chapter. Our definition of an ideal chapter being one that is first a credit to the college in which it is located, second a credit to the national fraternity, and third a credit to itself. We, the brothers of Phi Kappa Tau, take pride in all we do. We participate vigorously in campus activities and endeavors and are continually among the highest scholastically on campus.

Many of the services we perform throughout the year are participation in the Red Cross Blood Drive, our annual Christmas party for the underprivileged children, and other community projects. The highlight of our social calendar is the crowning of our queen during the Sentimental Sweetheart Weekend.

Our basic requirements for membership of innate worth, democratic principles, and Christian ideals are not merely stressed during pledging. They are continually enhanced throughout the year, thus instilling the chapter with a close bond of brotherhood.
As a national fraternity, Phi Sigma Kappa provides the experience and mature leadership necessary to adequately fulfill the ideals of fraternalism. Through a cooperative effort our qualified leaders encourage high scholarship and sound financial management.

Phi Sigma Kappa was founded in 1873 at Massachusetts State College. Since then it has had rapid growth because of the sound foundation laid by its charter members. The Upsilon Tetrarkon chapter at R.I.T. came into existence in 1960 when an active brotherhood known as Phi Sigma Phi was granted a national charter in Phi Sigma Kappa.

From its beginning the chapter has had a steady growth and taken its place as a leader among the fraternities at R.I.T. Phi Sigma Kappa today is the largest brotherhood on campus with active brothers in every major organization.

Phi Sigma Kappa places scholarship first above all else. We realize that every man is at school primarily to study and every possible aid is given to brothers in regard to their study habits.

We at Phi Sig strive to maintain high academic standards while retaining the social harmony that makes education a pleasure.
The main goals of Sigma Pi are to provide a healthy social atmosphere for college men and provide the opportunity of preparing men for the transition from school to industry. To the college male, no other unit or organization can offer as great a means to complement his educational training. For this reason the brothers are proud of Sigma Pi, a fine example of a college fraternity.

The highlight of the year is Fall Weekend with the crowning of our Harvest Moon Queen. This social event is the culmination of much hard work by the brotherhood.

We are active in all school functions and are proud to have brothers playing on the athletic teams and participating in student government at R.I.T.
Although Theta Xi is a social fraternity, activity in campus affairs plays an important part in our service to college and community. Theta Xi is involved in such campus and civic affairs as Spring Weekend and The Red Cross Blood Drive.

The brotherhood also shows strong support for the IFC programs, and our concentrated efforts in this area have won us the Volleyball Trophy, the Greek Sing Trophy, and the Softball Trophy, among others.

The highlight of our year is Sweetheart Ball. At this time the brotherhood bestows their trust and admiration on a very special person, their Sweetheart. This coupled with the appearance of the smiling faces of the alumni promote a most memorable and enjoyable weekend.

Most importantly, Theta Xi stands for individuality and trust in ourselves, for these are what make us the "Leaders On Campus."
Tau Epsilon Phi

The watchword of the fraternity has been careful expansion—a blending of chapters with a common aim and purpose as embodied in the "Creed of Tau Epsilon Phi," but never expansion for expansion's sake alone.

Epsilon Nu Chapter at R.I.T. is a Brotherhood whose goals are to provide group living with a well planned social life. Keeping the ideals of the fraternity in mind, service to the community has been a highlight in the past year. This has been demonstrated by Tau Epsilon Phi's support of the March of Dimes.

Tau Epsilon Phi means life; it is the hub around which one's college life centers, the difference between lifetime friends and casual acquaintances made at school.

Tau Epsilon Phi is mental; it is the undivided devotion that a Brother shares with the chapter. A chapter's most valuable assets are its Brothers.

Tau Epsilon Phi is pride; not only in the past, but in the future accomplishments of the individuals and the chapter as a whole.
The XI Zeta Chapter of Alpha Phi Omega, the National Service Fraternity, is now in its sixth year at R.I.T. The brothers of this Fraternity strive to uphold their cardinal principles of leadership, friendship, and service through the numerous projects they have rendered for the R.I.T. Campus, the Rochester community, and the country.

Not neglecting any facet of a man's college life, the chapter provides a well filled calendar of social events, and a well rounded athletic program in addition to the many fold service program.

PHYSICS DEPARTMENT
F. Kingsley Elder, Jr., B.S., North Carolina, M.S., Ph.D., Yale—Professor, Staff Chairman
Hrishikesh Banerjee, B.S., Presidency College; M.S., University College of Science; Ph.D., Institute of Nuclear Physics, Calcutta—Assistant Professor
Raymond M. Biehler, B.S., Ohio State—Professor
Mykola Hadsinsky, Candidate of Physics and Mathematics, University of Odessa—Professor
Charles A. Hewett, B.S., M.S., Missouri School of Mines; Ph.D., Missouri—Associate Professor
Lann D. McCord, A.B., Wittenberg; M.S., Purdue—Associate Professor
Varadaraja V. Raman, B.S., St. Xavier; M.S., Calcutta University; Ph.D., University of Paris—Associate Professor
James D. Richardson, B.S., West Point; M.S., Cornell—Associate Professor
Arthur N. Rosen, B.S., Rochester—Assistant Professor
Franklyn K. Schwanefluegel, B.A., M.A., Buffalo—Associate Professor
Earl H. Sexton, B.S., Tufts University; M.S., Massachusetts Institute of Technology; M.S.T., Cornell University—Assistant Professor
John S. Shaw, B.S., M.S., Indiana University—Assistant Professor
Robert Vos, B.S., City College of New York; M.S., Pennsylvania—Assistant Professor

COLLEGE OF GENERAL STUDIES
Paul Bernstein, B.S., M.Ed., Temple; Ph.D., Pennsylvania—Professor, Dean

LANGUAGE AND LITERATURE STAFF
Robert G. Koch, B.A., Rochester; M.A., Harvard—Associate Professor, Chairman
Janet R. Bickel, B.A., Connecticut College; M.A., Cornell—Instructor
Sarah Collins, A.B., Centre College; M.A., Ph.D., Indiana University—Assistant Professor
William DeRitter, B.A., St. Lawrence; M.A., Rochester—Assistant Professor
Helen Hadsinsky, B.S., Kharkov—Lecturer
Patricia Hardwick, B.A., College of St. Catherine; M.A., Ohio State University—Instructor
Bonita J. Longerbeam, B.A., Kentucky; M.A., Maryland—Instructor
Stanley D. McKenzie, B.S., Massachusetts Institute of Technology; M.A., Rochester—Instructor
Elizabeth S. Mosley, B.A., Wellesley; M.A., Rochester—Assistant Professor
Thomas J. O'Brien, B.S., Rochester; M.A., Columbia—Associate Professor
James J. Philbin, B.A., Connecticut; M.A., Stanford—Associate Professor
L. Robert Sanders, B.A., M.A., State University of New York, Albany—Assistant Professor
Norris M. Shea, B.A., Gannon; M.A., Western Reserve—Assistant Professor

SOCIAL SCIENCE STAFF
Warren C. Davis, A.B., Gooding; D.Ed., Buffalo—Professor, Chairman
Richard E. Bjork, B.A., Yale; M.A., Vanderbilt; Ph.D., Michigan State—Lecturer
N. Evelyn Brandon, B.S., M.S., Howard—Assistant Professor
Louis R. Elscher III, B.A., Houghton; M.A., American University—Assistant Professor
Joseph E. Fitzpatrick, B.A., M.Ed., Buffalo—Associate Professor
Bruce B. Herbert, B.S., Illinois; M.A., Northwestern—Instructor
Clayton E. Hughes, B.A., Oregon; B.S., West Point; M.A., Dartmouth—Professor
John H. Humphries, B.S., Oswego; M.S., D.S.S., Syracuse—Assistant Professor
Paul E. LeVan, B.S., Albright; M.A., Columbia—Associate Professor
Boris Mikolj, B.A., University of Graz; M.A., Western Reserve—Assistant Professor
Louis E. Neff, A.B., Denver; M.A., Mexico City College—Assistant Professor
John Ryan, B.S., Massachusetts State College, North Adams; M.S., Michigan; Ph.D., Wayne State University—Associate Professor
Julian Sallinen, B.S., Sir George Williams, Montreal; Ph.D., Alpen University, Austria—Associate Professor

SCIENCE AND HUMANITIES STAFF
Ralph L. Gray, B.A., M.A., Rochester—Associate Professor, Chairman
Frank A. Clement, B.M., Ed.M., Rochester—Professor
Douglas R. Coffey, B.F.A., Denver; M.A., Western Reserve—Instructor
Sam G. Collins, A.B., M.A., South Dakota—Assistant Professor
Norman R. Coombs, B.S., M.S., Ph.D., Wisconsin—Associate Professor
John J. Droeger, B.S., M.A., M.A.T., Notre Dame—Instructor
John R. Finger, B.A., M.A., Kansas; Ph.D., Washington—Assistant Professor
Frances H. M. Hamblin, A.B., Wells; A.M., Ph.D., Brown—Professor
Edwin O. Hennick, B.S.E., Michigan; M.Ed., Rochester—Associate Professor
Nabil M. Kaylani, B.A., American University of Beirut; M.A., Ph.D., Clark—Instructor
Richard D. Lunt, B.A., Oberlin; M.A., Ph.D., New Mexico—Associate Professor
Salah-ud-Din Malik, B.A., M.A., Panjab; Ph.D., McGill University—Associate Professor
Salvatore Mondello, B.A., M.A., Ph.D., New York University—Associate Professor
Pellegrino Nazzaro, B.A., Ph.D., Naples—Assistant Professor
James W. Wilson, B.S., St. Lawrence; M.A., Rochester; Ph.D., Chicago—Professor
Clarence E. Wright III, B.S.E.E., B.S., Engr. Physics, Lehigh; M.A., Indiana—Assistant Professor

A Letter

Without the dedicated staff with which I have worked, a publication such as TECHMILA could not have evolved into the finished product that it is. TECHMILA is the result of many long and sacrificial hours by an understaffed and often over-worked group of people.

I would like to give special thanks to my immediate staff: Skip Blumenthal, Beth Hooghkirk, Joel Freid, Bruce Hack, and Donna Williams, without whom this book would not have been produced. To the many people who came to my rescue at deadline time—the typists, REPORTER staff, friends, and friends of friends—goes my sincere thanks.

In addition, I wish to extend the gratitude of the staff and myself to our Administrative and Financial Advisor, Bob Webster, to our Photographic Advisor, Brad Hindson, and to all the other faculty members who were willing to take time to listen to our problems and offer their advice.

Foote & Davies deserves recognition for again living up to their fine name in quality and service. I would also like to extend thanks from myself and my staff to their representative Mr. William Sloane for all the help he has given us on this book.

Students of R.I.T., you have before you the combined efforts of a numerically, dedicated few. TECHMILA '68 will be with you for many years to come; criticize it if you must, enjoy it if you will.

Sincerely yours,

Robert Bruce Smith
Editor-in-chief
Colophon

Volume 57 of Techmila has been produced by Foote and Davies, Division of McCall Corporation, Doraville, Georgia, utilizing the offset lithographic process.

The paper used throughout the book is 90# Enamel by West Virginia Paper Company with the exception of the Old Campus section which is 80# Mohawk Superfine (Eggshell) by the Mohawk Paper Company.

All text matter has been set in 10 point Melior with italic, and the heads are set in 24 point Eurostile Extended.

Color photographs are reproductions of Eastman Kodak Ectachrome transparencies and have been color-corrected where necessary.

The cover was manufactured by Kingscraft Division of Kingsport Press, Kingsport, Tennessee. The base material has been embossed with a white overtone and the design is silk screened in brown.

Volume 57 has been produced in an edition of 3200 copies.
