AI-PROWIL Program

International Research Experiences at University West in Sweden

International Research Experiences at University West in Sweden

Cohorts of funded students conduct AI research focused on Industry 5.0, mentored by faculty teams from University West and RIT. Students also benefit from career-advancing professional development, including field trips to leading international companies.

IRES scholars experience eight weeks of research in Sweden in the fall semester, after two weeks of pre-travel activities at RIT.

**Applications due on March 15**
Complete the ETAP application at
https://etap.nsf.gov/award/7590/opportunity/10300.
One recommender is required.

AI-PROWIL Program

Rochester Institute of Technology

Example activities:

- **Research projects (https://www.rit.edu/ires/research-projects)**
- **Onboarding with tutorials for AI research**
- **Session on industrial innovation policy**
- **Industry 5.0 workshop and AI-PROWIL talks**
- **Research career advancement workshop**
- **Post-travel workshop**
- **Conference travel to present IRES research**

$6,300
Stipend

$3,000
Travel, Housing, Meals

Up to $2,000
Conferences

Preferred On-Campus RIT Graduate Programs

Selection prioritizes Ph.D. students:

- Biomedical & Chemical Engineering
- Business Administration
- Cognitive Science
- Color Science
- Computing and Information Sciences
- Electrical and Computing Engineering
- Imaging Science
- Mathematical Modeling
- Mechanical and Industrial Engineering
- Microsystems Engineering
- Physics
- Sustainability
