

WE Retreat 2019 Schedule Options

Your three option assignments are located on the back of your nametag. WE@RIT assigns students to options on a first-come-first-served basis.

ACADEMIC OPTIONS

- **Senior Design Showcase**
See presentations from a number of our Senior Multidisciplinary Design Teams. Presentations will be given by 5th year women engineering team members.
- **Engineering Design Challenge**
It's time to start thinking like an engineer! Put the engineering design process into action with a design-based challenge. The constraints? Time and resources!
- **Co-Op Round Tables**
One of the number one reasons that students select RIT as their final choice of school is because of our renowned cooperative education program. In this roundtable, you'll get to talk with current students about their co-op experiences.
- **Shop Tours (Machine Shop & Brinkman Lab)**
In this tour, you'll get to learn about the Machine Shop as well as the Brinkman Lab. Both are used for classes, projects, senior design, clubs and more.
- **Lightening Talks**
Hear women faculty from chemical, computer, electrical and industrial engineering majors give a succinct presentation on their research work before time runs out.
- **Biomechanical Presentation**
Three students taking Biomechanics and Robotics (MECE 589/689) will give a presentation to include a demo of a simple 3-D printed prosthetic. Especially suited for those interested in biomedical engineering and mechanical engineering.

SOCIAL OPTIONS

- **Hot Wheelz**
Hear from members of our award-winning all-women FORMULA SAE Hybrid vehicle team.
- **Engineering Clubs**
Learn about the different engineering clubs at RIT: Engineering for a Sustainable World, Society of Women Engineers, Engineering House, National Society of Black Engineers, Society of Asian Scientists and Engineers, etc.
- **Field House & Student Life Center**
For those interested in how to stay active once you arrive at RIT, a tour of this facility should satiate your curiosity. Learn about wellness courses available to students, as well as intramural and club sports, and see the fitness facility, indoor pools, sports courts and tracks.
- **Coffee Break**
For those needing a break for whatever reason, a group of current students will be your guides to Midnight Oil, one of our many on-campus coffee shops. This option is pay-your-own-way, and you can opt to chat with those current RIT students, or sit quietly on your own without judgment.
