WE're in Motion

Don't miss out on a unique pre-orientation experience for incoming KGCOE women students

Engineering Labs

Increase confidence
“I loved the labs! It was great to try hands on applications for different engineering majors, and I had so much fun. It reminded me why I chose engineering.”

Mentors

Make a difference
“I liked the friendly environment, and the sense of community that was created from being with the mentors and the other ladies in the program.”

Fun & Friends
Meet new people
“We’re in Motion started to build the sense of community around us women engineers. Without it, I wouldn’t have made some of the friends I have right now and great memories.”
