Engineering Labs
increase confidence
“My favorite thing was the different lab sessions. It gave me an opportunity to learn about the different majors and a chance to have lots of fun.”

“The labs helped me feel prepared and more confident about starting college.”

Fun & Friends
meet new people
“Moving in early allowed me to get a better feel for the campus and it boosted my confidence about RIT.”

“I loved meeting other women with the same interests as me.”

Mentors
make a difference
“The mentor teams were a lot of fun and allowed us to make new friends easily.”

“I loved being able to lead a group and teach them about engineering and RIT.”
