# MESSAGE FROM THE PRESIDENT

## A Message to the Class of 2025 from the RIT Kosovo President

As I write this final message to you as President of RIT Kosovo, my heart is filled with both gratitude and hope. This year marks not only the conclusion of another remarkable chapter in the life of our institution—but also the end of an unforgettable chapter in my own journey.

Serving as President of RIT Kosovo has been one of the greatest honors of my professional life. Over these past years, I have witnessed firsthand the transformation of a community—not just through the construction of new facilities, the launch of new programs, or the forging of international partnerships—but through the power of people: students who dared to dream big, faculty who pushed the boundaries of knowledge, and staff whose tireless efforts made everything possible.

Together, we have grown RIT Kosovo into a hub of academic excellence, innovation, and global impact. We have prepared future leaders, entrepreneurs, technologists, and change-makers. But more importantly, we have nurtured a culture of integrity, inclusion, and resilience—a community bound by shared values and an unyielding belief in education as a force for good.

As I prepare to step away, I do so with immense pride in all we have accomplished and an unshakable confidence in what lies ahead. The foundation we have built is strong. The next generation of leadership, faculty, and students will carry our mission forward—boldly and brilliantly.

To the Class of 2025: You are the legacy. You are the vision realized. As you step into the world, know that you carry with you not just a degree, but the spirit of RIT Kosovo—the courage to lead, the curiosity to learn, and the compassion to serve.

And if I may leave you with one lasting piece of wisdom, let it be from the great poet Rumi:

“Let yourself be silently drawn by the strange pull of what you really love. It will not lead you astray.”

Trust your inner calling—it knows the path even when the road ahead is unclear.

Thank you for allowing me to be a part of your lives and of this incredible institution. Though I may be retiring, my connection to RIT Kosovo will never fade. This place—and each of you—will forever hold a special place in my heart.

With deepest gratitude and warmest wishes,  
Dr. Kamal Shahrabi  
President, RIT Kosovo

# **MESSAGE FROM THE DEAN**

## **A Message to the Class of 2025 from the RIT Kosovo Dean of Faculty**

As I write this message to the graduating Class of 2025, I find myself reflecting not only on your journey—but on ours as a community. This yearbook captures memories, milestones, and moments that have shaped your time at RIT Kosovo. But beyond photographs and captions lies something far more powerful: the story of your growth, resilience, and promise.

Serving as Dean of Faculty at RIT Kosovo is a privilege I carry with deep responsibility and even deeper pride. Every day, I have the opportunity to witness the brilliance and drive of our students, their curiosity, their courage, and their determination to create a better world. You, the Class of 2025, embody all that is best about this institution.

Throughout your time here, you have been part of a community that values not just academic excellence, but also integrity, empathy, and impact. You've asked difficult questions, sought meaningful answers, and supported one another along the way. You've made our classrooms livelier, our discussions richer, and our campus brighter.

As you now prepare to step into the next chapter of your lives—whether that be in graduate study, your first job, a start-up, or somewhere unexpected—I encourage you to carry the spirit of RIT Kosovo with you: the drive to pursue truth, the commitment to community, and the belief that education is not just a path to success, but a tool for transformation. To the Class of 2025: You are not just our graduates. You are our legacy. We are proud of the scholars you have become, and even more proud of the human beings you are. Wherever life takes you, remember that you are always part of this family.

With deepest gratitude,

Dr. Albina Balidemaj  
Dean of Faculty, RIT Kosovo

# **Student Government & RIT Kosovo Clubs**

# THE STUDENT GOVERNMENT

This year, the bRITge Student Government was more than a representative body, it was the engine behind some of our most unforgettable memories. From spontaneous themed days to cross-border trips, from Nutella-fueled mornings to nights under the stars, SG delivered a campus experience full of color, culture, and connection. With a spirit of inclusivity and a whole lot of energy, they kept the good vibes going all year long.

## Podcasts, Panels & Partnerships

From thought-provoking podcasts to election breakdowns, SG kept the student body informed and engaged. They also took care of the little things that made a big difference: launching student lockers, adding chargers and blankets across campus, and upgrading sports equipment because comfort counts too. Plus, the exclusive Hej Taxi partnership made getting to class a little easier (and cheaper!).

## Parties, Games & Good Times

Game nights became the go-to mid-semester reset. Themed parties ranged from Halloween thrills at Zone to a cozy Christmas-inspired night in red and white at Duplex, and unforgettable open-air fun at Edhe. SG made sure fun was never more than a weekend away.

## Moments That Mattered

Spring Fest was, once again, the crown jewel, four days of fun: from sports tournaments and open-air movies to the ever-wholesome “Bring Your Pet to Campus”.

Trips to Remember: From exploring the history and nightlife of Budapest & Vienna to hiking the peaks of Valbona, SG kept students moving and bonding. The End-of-Year Ball brought the perfect touch of elegance to close out the year—dressed up, danced out, and truly unforgettable.

Fundraisers with Heart: Through events like Pink October and Independence Week, SG turned awareness into action—hosting charity sales, guest talks, trivia nights, and sweet treats with a purpose.

With the Cybersecurity Capture the Flag and the Programming Hackathon, SG proved we party *and* code.

Whether it was handing out hygiene kits, surprising us with campus treats, or just putting smiles on faces with meme contests, this year's Student Government never stopped showing up. They balanced fun with purpose, laughter with learning, and late nights with leadership. They've left big shoes to fill and a campus better than they found it.

# ARTS CLUB

This year, the Arts Club was all about adding a creative touch to campus life and bringing people together through art. They worked hard to make every season and celebration feel special.

They kicked off the year by decorating the campus for Breast Cancer Awareness Month, using soft pinks, hand-cut ribbons, and a striking visual display to spread awareness and support. For the holiday season, they transformed the hallways with handmade ornaments, lights, and cozy decor—going all out. A collaborative ornament-decorating workshop with other clubs became one of the most wholesome and interactive events of the semester. And, of course, Secret Santa brought plenty of laughs, surprises, and connection between students across all years.

On Valentine's Day, the club embraced the spirit of love and friendship with red and pink decorations, heartfelt messages, and a warm atmosphere of kindness and appreciation. As spring arrived, they filled the space with paper flowers and greenery, bringing a much-needed burst of color after winter.

One of their most meaningful activities came at the end of this semester: a canvas where seniors could leave their handprints and write parting messages. It became a symbol of memory, connection, and a creative goodbye from those who are moving on.

# CHARITY CLUB

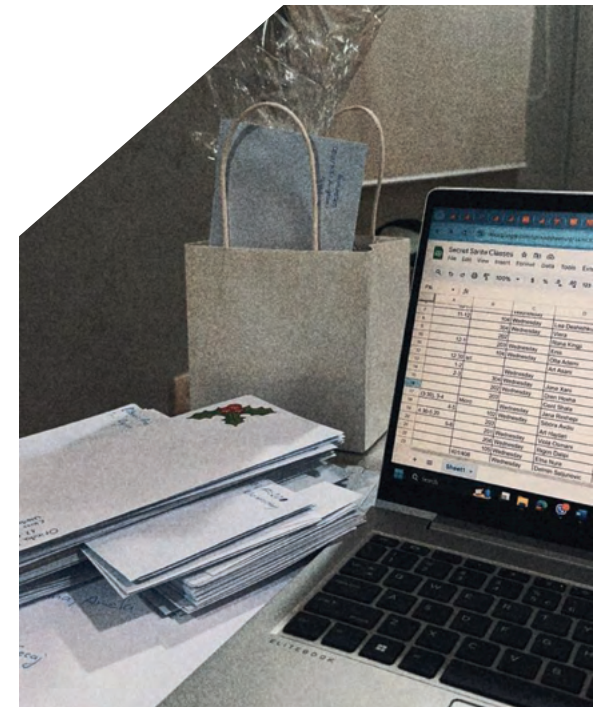

During this academic year, the Charity Club remained one of the most active clubs on campus, leading a variety of fundraising and community support initiatives. In collaboration with the Student Government and other clubs, they organized impactful efforts that extended both locally and nationally.

The club raised funds during nearly every major celebration, with proceeds supporting meaningful causes such as a family in need, an organization supporting women with breast cancer, Autism Day initiatives, a local dog shelter, and a veteran requiring assistance. While photos couldn't be shared due to confidentiality, these actions brought real impact to those involved.

Beyond fundraising, the Charity Club also provided educational courses for children from the SOS Village, offering lessons in English, German, math, and technology. Through these combined efforts, the club worked hard to create lasting change and support where it was needed most.

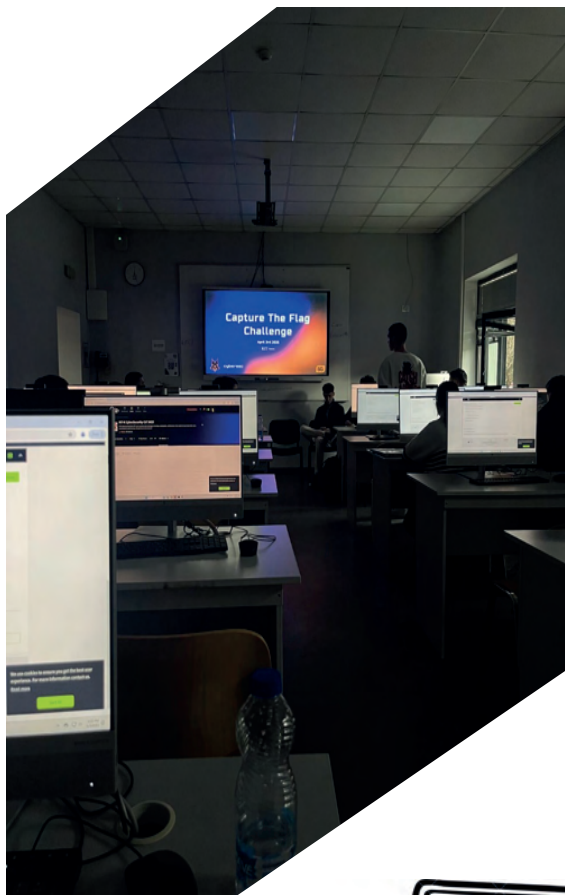

# CYBERSECURITY CLUB

The Cybersecurity Club had an exciting and productive year, centered on hands-on learning and real-world challenges. One of their biggest standout achievements was qualifying and placing 4th in a regional cybersecurity competition, where they were the youngest team in the Top 10. To prepare, the team pulled an intense all-nighter on campus to work through the qualifying round. In addition, the club organized a campus-wide Capture the Flag (CTF) hackathon and hosted discussions on digital safety to engage and educate students about current cybersecurity threats.

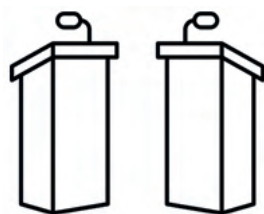

# DEBATE CLUB

The Debate Club at RIT Kosovo is an intellectually engaging space for students passionate about public speaking and structured argumentation. The club provides a platform to practice critical thinking, develop persuasive techniques, and explore a wide range of real-world issues through organized debates.

Throughout the semester, members took part in group discussions, practice rounds, and informal prep sessions to sharpen their delivery and argument structure. Students gained confidence in defending their viewpoints, thinking quickly, and communicating clearly—skills that go far beyond the debate floor. As the club continues to grow, it's building a strong foundation for meaningful discourse and student voice on campus, one debate at a time.

# ECONOMICS CLUB

The Economics Club kept tradition alive this year with their most anticipated event: the Stand-Up Economist. Students blended comedy with economic insight, using humor to unpack everything from inflation and inequality to everyday financial habits. With one edition hosted at ICK in the fall and another during Spring Fest, this year's performances offered both laughter and learning. The events gave students a stage to explore serious topics with a lighthearted twist, proving that economics doesn't have to be dry when it's connected to real life, current events, and a clever punchline or two.

The club also opened up casual conversations about major economic issues, from market trends to everyday financial decisions. It gave students space to reflect, discuss, and connect through shared curiosity. With its creative mix of insight and wit, the Economics Club remains a distinctive part of campus life—where ideas meet laughter, and theory meets the real world.

# ENERGY CLUB

This year the Energy Club contributed to some of the key sustainability-focused events on campus. They participated in an info session on solar energy and worked with EcoKos, a company that recycles cooking oil into renewable energy, helping introduce students to real-world applications of green technology. Their biggest project was the Energy Fair, an event bringing local companies to campus for a day of networking and discussions about careers in Kosovo's growing energy sector. With an eye on the future, the club continued its mission of keeping energy and sustainability part of the campus conversation.

# FRED C. CUNY PEACE AND CONFLICT CLUB

This year, the Fred C. Cuny Peace and Conflict Club created a space for thoughtful conversation around local and global issues of conflict, human rights, and peacebuilding. Members engaged in discussions and attended lectures that introduced them to different perspectives on diplomacy, justice, and resolution strategies. One of their first campus-wide initiatives was a writing competition focused on Kosovo-specific peace and conflict case studies, where students submitted research-based papers and the top three entries received recognition and awards. Through projects like this, the club encouraged reflection, critical thinking, and a deeper understanding of what it takes to build a more just and peaceful future.

# INTERCULTURAL CLUB

The Intercultural Club aims to create a welcoming and inclusive space where students from diverse cultural backgrounds can connect, share experiences, and feel at home on campus. They promote open and respectful discussions about culture, identity, and societal issues, encouraging meaningful dialogue in a supportive environment. Through engaging events such as movie nights, workshops, games, and creative activities, they celebrated diversity while learning from one another. Whether through thought-provoking conversations or fun gatherings, this club has been a place where every voice is heard, valued, and embraced.

# JOURNALISM CLUB

This year, the Journalism & Press Club focused on creating this yearbook—from gathering content and coordinating with clubs to organizing class and staff photos. We also collaborated with the Student Government on their podcast initiative, assisting with setup and production. While much of our work happened behind the scenes, it played a key role in highlighting the people and moments that shaped this academic year.

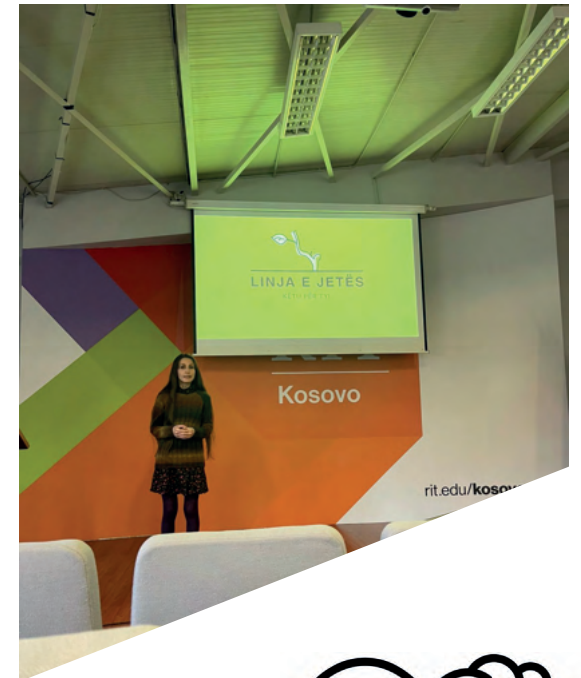

# MENTAL HEALTH CLUB

This year, the Mental Health Club led several impactful initiatives to raise awareness and promote mental well-being across campus. The club organized panel discussions and workshops with experts while also collaborating with organizations like Linja e Jetes and Autizmi Flet to break the stigma surrounding mental health and create safe, supportive spaces for students. Through fundraisers and joint events with other clubs, this club expanded their mission beyond campus and into the broader community.

# MUN CLUB

The RITK Model United Nations (MUN) Club fosters diplomacy, global awareness, and leadership through hands-on engagement with global issues. Each year, the club hosts the prestigious RITK MUN Conference, which has welcomed over 70 delegates from Kosovo, Albania, North Macedonia, Ghana, the Netherlands, the US, and beyond. These conferences have earned national recognition, including praise from the Office of the President of the Republic of Kosovo.

This year's sessions addressed urgent topics across several committees: Women's Rights Violations in Iran (UNHRC), the Cuban Missile Crisis (UNSC), and Iran's Cyber Attack on Albania—followed by debates on NATO Expansion and Global Insecurity (NATO).

In a major milestone, the club also organized its first-ever High School MUN, where students in the UNHRC debated Green Energy: A Path to Justice Beyond Oil. Through initiatives like these, the MUN Club empowers students to think critically, speak persuasively, and collaborate across borders—skills that extend well beyond the committee room.

# 3...2...1......1...2...3 PHOTOGRAPHY CLUB

Launched this semester, the Photography Club is a newly formed group of students passionate about capturing campus life. One of their first events was a campus-wide PhotoBooth, where students could have their pictures taken using either a Polaroid or a Canon EOS camera. The Polaroid offered instant printed keepsakes, while photos taken with the Canon were professionally printed and distributed to students later.

Keep an eye out next semester for more PhotoBooths, photography competitions, and creative activities—this club is just getting started.

# POLITICS AND INTERNATIONAL RELATIONS CLUB

This year, the club had the unique opportunity to assist Professor Mrika Kotorri in organizing the Political Leaders' Forum, a dynamic event that brought together several of Kosovo's political figures. Held in the lead-up to the February elections, the forum provided a platform for leaders to share their visions for the country's future, presenting their policies and priorities. It was an inspiring and educational experience that deepened students' understanding of civic engagement and the democratic process. Earlier in the semester, students also had the honor of hosting Rrahman Rama, former Lieutenant General Commander of the Kosovo Security Force, for a guest lecture on leadership, national security, and institutional service.

# SPORTS & E-SPORTS CLUBS

RIT Kosovo's Sports and E-Sports Clubs bring together students with a passion for competition, teamwork, and fun—whether on the field or behind a screen.

The Sports Club promotes physical wellness and community through friendly athletic events. This year, they organized football, basketball, and table tennis tournaments, giving students the chance to compete, bond, and stay active. The club remains a hub for sports enthusiasts who value teamwork, energy, and sportsmanship.

The E-Sports Club champions the digital side of competition, offering an inclusive space for both casual players and serious gamers. This year's highlights included tournaments in Counter-Strike 2, FIFA, and League of Legends, drawing strong participation and spotlighting the club's growing presence on campus. Focused on strategy, collaboration, and high-energy play, the club continues to build a strong gaming culture.

Together, these two clubs offer students the best of both worlds—physical and virtual arenas where they can grow, compete, and connect.

# WOMEN IN BUSINESS CLUB

The Women in Business Club at RIT Kosovo was inspired by the existing club at RIT Main, which has built a strong community of support for women pursuing careers in business. The club aimed to create a space where female students could connect, share experiences, and empower one another in their professional journeys. Focused on addressing the challenges women face in the business world, the club provided valuable resources, mentorship, and networking opportunities. Through a variety of organized activities, they worked to build confidence, encourage leadership, and support students in thriving beyond the classroom.

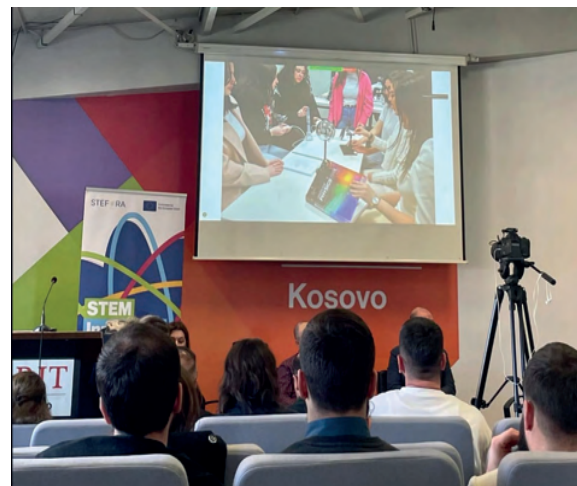

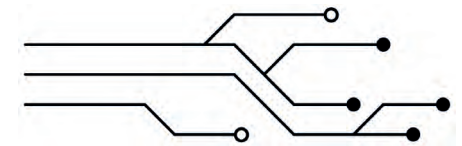

# WiSTEM CLUB

During this academic year, the WiSTEM Club was at the heart of campus life, leading a series of impactful and engaging activities. The club played a key role in the success of the STEFORA Conference, where they advocated for inclusivity and access in STEM fields while also introducing the STEFORA STEM Expert Network to connect students with global mentors. In collaboration with Academic Affairs, the club hosted an information session on RIT's academic resources, offering students insights into immersions, minors, and other academic opportunities. The club also launched its first peer-to-peer learning session, using writing and rhetoric as tools of influence. WiSTEM also contributed to Girls in STEM Week, the RIT Kosovo Career Fair, and hosted the second edition of "Inspiring Women's Path to Success", featuring accomplished women leaders from Harvard, KODE Labs, and beyond. Posters celebrating women in STEM were also displayed across campus labs. The club continues to foster innovation and collaboration with the much-anticipated second edition of the MIKETxWiSTEM Hackathon coming in June, empowering students to create, compete, and connect.

# **CONGRATULATIONS**

## **RIT Kosovo (A.U.K.)**

### **Graduating Class of 2025**

You've made it through the late nights, the early mornings, and everything in between. This yearbook is for you — a small reminder of all the people, memories, and moments that made these years unforgettable. Here's to everything you've done, and everything still ahead.

# Acknowledgments

We'd like to thank Albiona Destani, Artesa Qela, Driola Brucaj, Erda Salihu, Erkenda Kabashi, Jona Berbatovci, Jona Gecaj, Lusila Marku, Nida Shulemaja, Sibora Avdiu, and Vanesa Sylejmani for taking the student class photos — your time and effort made organizing everything so much easier.

A big thank you to Jona Gecaj and Jona Berbatovci for designing the yearbook and putting in all the work to bring it to life. We're also grateful to the student clubs and Student Government for their contributions to their respective sections, helping make each page more personal and complete.

Lastly, thank you to the RIT Kosovo staff who supported us throughout this process. We truly appreciate your help in making this happen.
