

# ROAR & SOAR

RIT | College of  
Liberal Arts

## Solve for Success.

Successful students know that challenging classes are an opportunity to grow, and they take advantage of the many resources RIT offers to help them succeed.

### 3 Ways to ROAR this Week:

- **Attend Saturday Math Academy.** Drop by the Bates Study Center this Saturday for extra practice problems to boost your confidence, conquer tricky topics, and reinforce what you've learned in calculus. There's free breakfast, too.
- **Learn about Supplemental Instruction.** Supplemental Instruction (SI) is basically like a group study session. You can learn how to organize and effectively study class material with classmates or an SI leader. Check the schedule for sessions focused on courses where you need some help.
- **Try drop-in tutoring around campus.** You can get tutoring by subject, in a residence hall (Sol Study Center), in Gosnell Hall (Bates Study Center), with the Division of Access, Engagement, and Success, in Wallace Library (The Writing Center), and through NTID. Find what works for you!
