

ROAR & SOAR

RIT | College of
Liberal Arts

9 Prepare for Next Semester

Successful students plan ahead for the next semester's class registration. Talk to your advisors and check out SIS before it's time to register so you can be prepared. You've got this!

3 Ways to ROAR this Week:

**Make an
Advisor Appt.
In Starfish**

**How to Read
Your
Academic
Advising
Report**

- **Meet with your academic advisor.** If you haven't already met with your academic advisor this semester, make an appointment now. This is required before you can register for next semester. Your advisor can also help you identify courses that keep you on track to graduation, come up with back-up ideas in case you're waitlisted, and answer other questions.
- **Check your Academic Advising Report (AAR).** Make sure you are on track for your major's requirements by checking your Academic Advising Report in SIS. Your advisor can help you figure out the courses you need to stay on track to graduation.
- **Build your shopping cart in SIS.** Your "shopping cart" opens Mar. 17. This means you can go into SIS and start loading the fall courses you want into your cart. Get this ready ahead of time and validate that you can enroll in those classes so that when your enrollment appointment begins, you simply have to hit submit.

Calendar Spotlight

Shopping Carts Open
