

STUDENT RESEARCH FUND
APPLICATION

Applicant's Name and Email: _____

Home Department: _____

Faculty Sponsor's Name and Email: _____

1. Problem: Describe the problem you wish to explore, or the question you seek to answer. Include a summary of your literature review. **(No more than 400 words.)**

2. Objectives: Describe the anticipated outcomes of your project ("To learn ..." "To discover..." "To create ..."). If appropriate, describe the social and/or scholarly benefits of the project. **(No more than 100 words.)**

3. Procedures: Describe what you will do to complete the project. Be sure to aim this description toward generally educated readers who will not be familiar with your professional jargon. At the same time you should thoroughly describe your methods so it is clear how you will be able to answer the problem described in Section 1. ***Include a timeline with estimated date of completion.*** **(No more than 400 words.)**

4. Budget: Itemize the costs of completing your project. All items requested in the budget should be accounted for in your Procedures. Please remember that grants are limited to \$500.
