Rochester Institute of Technology and the School of Film and Animation

Founded in 1829, Rochester Institute of Technology is a diverse and collaborative community of engaged, socially conscious, and intellectually curious minds. Through creativity and innovation, and an intentional blending of technology, the arts and design, we provide exceptional individuals with a wide range of academic opportunities, including a leading research program and an internationally recognized education for deaf and hard-of-hearing students. Beyond our main campus in Rochester, New York, RIT has international campuses in China, Croatia, Dubai, and Kosovo. And with nearly 19,000 students and more than 135,000 graduates from all 50 states and over 100 nations, RIT is driving progress in industries and communities around the world. At RIT, we are always on to something amazing. Find out more at rit.edu

RIT's School of Film and Animation (SOFA) enrolls over 400 students in three degree programs: a BFA in Animation or Production; a BS in Motion Picture Science; and an MFA in Production, Animation, or Screenwriting. Students enrolled in the BFA production program graduate as competent crew members, having gained experience in all filmmaking aspects from pre to post production. The curriculum is designed to give students a taste of all filmmaking crafts, then allows them to choose their own path to specialize in their strengths. The animation BFA curriculum is designed similarly, in which students choose to specialize in 2D, 3D or stop motion animation.

The Motion Picture Science BS degree crosses multiple disciplines in film production, imaging science, and engineering. It is unique to RIT, providing students an opportunity to work in the technical side of the filmmaking industry.

Graduates of the MFA program will receive a terminal degree in filmmaking. Students choose to specialize in production, screenwriting, 2D or 3D animation, and must complete a thesis capstone project to fulfill degree requirements. Upon graduation, students have the knowledge and skillset to either work on a production or animation team, write, direct, or teach their discipline at a university

Available Talent within RIT's College of Art and Design

Students, faculty, and staff within the conveniently located College of Art and Design (CAD) are an extensive resource available to productions filming at MAGIC. CAD houses a variety of nationally ranked programs ranging from film and animation, industrial design, furniture design, photography, glass blowing, and everything in between. Because of RIT's commitment to experiential learning, these students are eager to learn from working professionals and are prepared to contribute to your projects when appropriate. With proper planning, this professionally trained student body can be available to help your crew in transforming our soundstage into a working set.

CAD resources include: a large format printing facility, carpentry, painting, on-set photography, competent student film crew, and more. The talent within the College of Art and Design is boundless and ready to support your production needs.

MAGIC Access and Facilities Use

Non-RIT commercial clients must agree to the terms of the MAGIC Facilities Use Agreement and provide a Certificate of Insurance (COI) to the outlined specifications. A 50% deposit of the quoted facilities use fee will be due at signing. Commercial clients and guests on RIT campus are expected to comply with RIT policies and procedures, as well as those established by MAGIC.

Clients will be issued a vendor security key card to access agreed upon facilities for the duration stated in the signed contract. A maximum of 10 cards may be issued per production. Vendor security key cards are to be returned before the client vacates the space.

All facility inquiries should be directed to Amanda Hughes, Technology Manager and Studio Systems Specialist. Amanda Hughes is the primary contact for production crews at MAGIC Spell Studios. She will coordinate facility usage and fees, manage facility timecards, and serve as “last person out”.

Facilities Use Agreement and COI Requirements

All facility rates can be found in Appendix (E). Please note scheduling priority is given to academic requirements during the academic year, which runs from late August through early May. All reservations are made in coordination with Amanda Hughes.

Facilities Rates and Availability

Clients must agree to the full terms and conditions of the MAGIC Facilities Use Agreement. Originally negotiated facility fees may change during occupancy based on factors such as ad hoc equipment additions or overtime charges incurred after signing. Clients assume full risk and responsibility for any damage, loss, or theft of RIT property. Clients must provide a COI confirming required insurance coverage as specified. Clients are to name Rochester Institute of Technology as additionally insured. The certificate holder is to be listed as:

MAGIC Facility Resources and Services

Equipment Guide

The MAGIC Spell Studios sound stage is outfitted with an Arri ALExa Mini studio camera package, Arri LED Skypanel and Fresnel lighting, and a full grip department. Additional gear not available from our inventory can be rented through other local equipment providers. Please reach out to the Rochester/Finger Lakes Film Commission for assistance. See page 15 for contact information.

Cleaning and Waste Removal

MAGIC Spell Studios provides waste removal free of charge for what is considered to be a normal amount of trash. A normal amount of trash can fit neatly within the provided dumpsters, without any spillage or overflow. Productions may also pursue trash removal services independently. Optionally, MAGIC can coordinate trash removal needs for excessive amounts of trash, including disposal of large set pieces, at the production's expense. A 10% mark-up will be added to cover MAGIC's time and labor, and the production must have crew available to strike the set and waste. Productions interested in MAGIC's assistance with trash and set removal must coordinate with Amanda Hughes before contract signing.

If a production leaves waste or set pieces behind without a previous arrangement to do so, they will be invoiced for the cost of waste removal, including the 10% mark-up, and a \$500 surcharge will also be incurred.

MAGIC facilities and property must be cleaned and returned to their original state upon vacating the space at the end of the rental term. This includes sweeping and/or vacuuming, and removing any materials, equipment, trash, tape and residue. Clients will be invoiced a \$500 fee in addition to any other expenses incurred for failure to return spaces and equipment back to their original working order.
