National Numbers from K-12

- During 1991, of the 44 million students between the ages of 5 to 7 years, 876,000 (2%) had a hearing loss among whom only 8% received educational support services mandated through the Individuals with Disabilities Education Act (Ries, 1994: U.S. Census Bureau, 2003.
- This means that 92% of these students received no special educational support services.
