

## Technologies to Support Students with Vision Impairments

By Josara Wallber, Audiology Faculty,  
Communication Studies & Services, NTID/RIT  
and  
Chas Johnstone, Project Coordinator,  
Technology Support Services, NTID/RIT

A growing number of deaf and hard of hearing students with visual impairments are attending college. This presentation discusses the incidence of visual impairments and types of vision impairments, and addresses various technologies, communication strategies, and modifications that can be utilized to enhance classroom instruction.
