6. The <b>WWW Project Development and Front Page 2001 Training</b> (June 28 <sup>th</sup> and 29 <sup>th</sup> , with Jonathan Millis and Joan Naturale) provided me with the information and support so I could start developing a course web page for use at TCT.	86%	14%				
7. I have a better understanding of how USA teachers of the Deaf use technology in their teaching.	86%	14%				
8. I have a better understanding how a computer lab can be used by deaf students.	86%	14%				
9. I am better able to create instructional web pages because of my training from PEN-International.	86%		14%			
10. The PEN-International computer lab was easy to use.	100%					
11. The objectives for each training activity were clearly explained before the training began.	86%	14%				

12. What did you like most about the PEN-International training?

- Information about how NTID teachers use technology in teaching deaf college students.
- I think I learned much knowledge there. And many presentations impressed me very much.

Moreover, I feel it will me in my teaching.

- I learned something from PEN-International training and saw some new things. Now I understanding of how USA teachers of the Deaf use technology on their teaching.
- I liked the high technology training.
- First I learned much knowledge there. Second I knew many friends there. And I feel very comfortable. May I say "thank you" to you and your colleagues.
- I was provided many useful information. Skill everyday. As the best. I thought that maybe the technology about the lab establishing. And I want to say thanks to Bob and Steve again for their help.
- I liked all the content of the PEN-International training.

13. Any suggestions for improving the PEN-International training?

- The training could be conducted regularly.
- If condition permits, may you held the training regularly?
- Very Perfect.
- The time of the PEN-International training is too short. It should be longer and we will learn more.
- I think it is the best training I have attended. I hope I could take part in the next training in other fields.
- Although the training was not very long I have got a lot of things. And it is very useful to my and my teaching. I hope we could have more chance like this to develop our ability for teaching deaf students in the future.
- No

14. Based on your PEN-International experiences, what changes are you making in your teaching, or in your use of instructional technology?

- I can use more advanced technology in my teaching.
- I got the new ideas to teach my students, and I used the new technology, the computers and the projectors and so on to help my students.
- I have a better understanding how a computer lab can be used by deaf students.
- I learned good ideas in physics teaching and new technology. And I want to let the students do more experiments or simulate by computers. It is the best way to know students.
- I am trying to use the skills and information in my teaching. And we have bee using the technology that we learned from you to set up the PEN Lab. I am studying some computer technology which I knew from NTID, so that I could use in my teaching someday.
- 1. In class I want to increase the discussion of students each other and student with teacher. 2. Strengthen the computer technology assistant Instruction Special students self-study ability.
