Valery Ye. Safronov, Cand. Sc. (Engineering), Associate Professor, Department of Instrument - Making Technology, BMSTU.

Graduated from BMSTU, qualification: radio engineer.

Research activities include optimization of radio-electronic device manufacturing.

Has been conducting research connected with technology for teaching and learning support at the BMSTU-based Center on Deafness, with a focus on the use of computers, cameras, camcorders, and other technical devices. Has also been involved in developing new technical units and devices, Web-based tutorials, etc.

Teaches *Computer Office Technologies* to deaf students.

E-mail: safonov@bmstu.ru

Olga A. Oreshkina, electronic engineer, Computing Engineering Laboratory, teacher of Basics of Information Science; Center on Deafness, BMSTU.

Graduated from: D. Mendeleev Moscow Chemical Engineering Institute, qualification: chemical engineer.

Research activities include development and use of technologies to support teaching students who are deaf or hard-of-hearing, creation of friendly learning environment. Concentrates on tutoring and note taking. Manager of Tutoring and Note Taking Service.

Carries out search, interpretation and generalization of information (including Internet search) relevant to technologies for supporting and optimizing learning by students who are deaf or hard-of-hearing.

Uses multimedia and other teaching facilities in teaching freshmen Basics of Informatics.

E-mail: oreshkin@mx.bmstu.ru

Galina V. Kirsanova, Associate Professor,
Department of Foreign Languages,
BMSTU.

Graduated from M. Toretz Moscow State Institute of
Foreign Languages, qualification: teacher of English.

Has been teaching English to undergraduate and
graduate students of Radio-Electronics Department of
Bauman University for over 20 years, with an emphasis on *Speaking English*.
Teaching experience includes 8 years of teaching the hard-of-hearing students of
BMSTU-based Center on Deafness with a focus on *Grammar* and *Reading
Comprehension*.

E-mail: dgkirsanov@dio.ru

Margarita V. Kulikova, Professor, Department of
Foreign Languages, BMSTU.

Graduated from Moscow State Teacher Training
Institute, qualification: teacher of English.

Has been teaching English to both undergraduate and
graduate students of Radio-Electronics and Biomedical
Engineering Departments of BMSTU for seventeen
years, including eight years of teaching the hard-of-hearing. In teaching students in
the mainstream concentrates on *Speaking* and *Reading Comprehension*, while with
the deaf the focus is on *Grammar* and *Reading Comprehension*.

E-mail: kul@bmstu.ru

Ludmila A. Ivanova, Associate Professor,
Department of Foreign Languages, BMSTU.

Graduated from Moscow Teacher Training Institute,
qualification: teacher of English.

Has been teaching English to both hearing students of
Engineering Business and Management Department
of BMSTU with a special emphasis on *Speaking, Reading Comprehension* and
Writing, and the hard-of-hearing students of the Center on Deafness concentrating
mainly on *Grammar* and *Reading Comprehension*.
