Amazing awaits.

We'll provide the future-focused degree programs, inclusive environment, real-world career experiences, a vibrant campus life, and unparalleled access services and support.

You bring you.

We are creating the most powerful, successful network of deaf and hard-ofhearing professionals in the world. Join us and help move the world forward.

Find your fit.

We welcome all. Connect with other students like you.

Fitting in at RIT is about students with unique identities, experiences, and perspectives coming together to collaborate, create, innovate, and thrive.

Here you can be who you are and explore who you want to be. This community will welcome, support, and celebrate you. Deaf and hard-of-hearing students make meaningful connections with classmates, faculty, and staff and find a sense of belonging from the minute they step on campus.

At RIT you'll find other students like you, and you'll discover more about yourself than you ever knew.

"

RIT caters to both my general needs and my specific needs as a deaf student. All campus activities are inclusive, and it's incredibly easy to develop as a person here. I found my identity at RIT, and I have done things I had never imagined were possible.

BOBBY MOAKLEY

Environmental Science/Science, Technology and Public Policy Boston, Massachusetts RIT Student Government President, 2019-2020

"

I knew to be successful in college I needed to find a place where I would be comfortable and accepted. That's what I found at RIT. I love that there is such a diverse group of deaf and hard-of-hearing people here. There is no other place in the world like RIT.

LANIECE OLIVER

Business Administration Baltimore, Maryland

"

At RIT, I was able to combine aspects from my passion in chemistry and business and create my own major in these different fields of study. The resources I found here specifically for deaf and hard-of-hearing students have truly benefited me. I am getting a well-rounded education, hands-on experiences, and a network of support, which help me to be successful.

ADAM HSU

Laboratory Science Technology/ Applied Arts and Sciences Oakland, California

"

The opportunity to immerse myself for the first time into a Deaf community and get the access services I need to be successful in my major strongly influenced my decision to apply to RIT. I love the sense of community here and shared understanding, no matter your background or how you communicate.

CECE GALLAGHER

Biomedical Sciences Inwood, West Virginia

From here to anywhere.

No matter what you're planning next, you can hit the ground running with an RIT degree. Pursue the academic program that suits you best. And if you're unsure about what you'd like to study, we'll work with you to discover your passions and unleash your potential.

Individual Career Guidance

Employment specialists in the NTID Co-op and Career Center work exclusively with deaf and hard-of-hearing students and will work with you throughout your time at RIT. Services include employment advising and assisting with job search preparation. NCCC staff network with employers across the country to develop opportunities for deaf and hard-of-hearing students and graduates. Campus-wide career fairs are held annually, including one specifically to recruit deaf and hard-of-hearing students for co-ops and permanent jobs.

Jump-start Your Career

You can engage in cooperative work experiences, internships, undergraduate research, study abroad, service learning, and more to gain leadership experience, global awareness, and marketable skills that will set you apart as you pursue a career or graduate study.

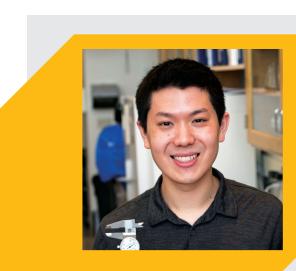

With RIT's cooperative education program—the fourth oldest and one of the largest co-op programs in the world—you'll apply what you're learning in the classroom to a real-world job before you graduate. Your co-op can offer you paid professional experience and is a great way to develop connections and relationships that can help advance your career, add depth to your resume, and make you more marketable.

RIT's co-op partners include Apple, Boeing, Google, Microsoft, and many other Fortune 500 businesses. Each year, more than

4,100

RIT students participate in co-ops and internships with more than

2,200 employers around the world.

RIT faculty are e

RIT faculty are experienced working with deaf and hard-of-hearing students. RIT/NTID student Samuel Lum and his faculty mentor, Dr. Robert Osgood, share a passion for research. Lum's background in mechanical engineering technology and Osgood's microbiology expertise

Finding a mentor while mastering microbes

in studying biofilms were the perfect multidisciplinary approach that led to identifying the genes most likely responsible for hospital-associated catheter infections. Their working relationship and involvement in research projects at RIT set Lum on his career path.

Hit the ground running when you graduate.

Abraham Glasser credits his co-op experiences at Microsoft and NASA for helping him determine that he didn't want a typical 9-to-5 job. Instead, he realized that a career developing accessible technologies for deaf and hard-of-hearing people would fulfill a passion for research. His participation in the National-Science-Foundation-funded Research Experience for Undergraduates helped him home in on his passion. Glasser earned the Outstanding Graduate Award in the bachelor's degree category and recently completed his education in RIT's computing and information sciences doctoral degree program to become RIT's first deaf Ph.D. graduate.

Nicole Pannullo, a biochemistry major, is the first hard-of-hearing RIT student to be named a Barry Goldwater Scholar the highest undergraduate award of its kind in the natural sciences, math, and engineering fields. As an undergraduate research fellow at the National Eye Institute, she gained confidence in both her technical and intellectual skills. Her goals are to pursue a Ph.D. and run her own lab in the future.

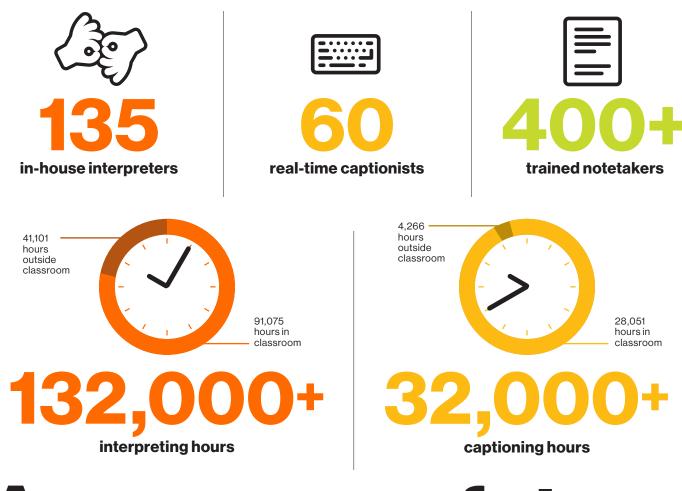

Rachel Taylor, a software engineering major, says the resources available for deaf and hard-of-hearing students influenced her decision as a deaf person to choose RIT. She is especially thankful for the NTID Co-op and Career Center that works with employers around the country to facilitate hiring deaf co-op students and graduates. She got hired by JP Morgan Chase in California as their first deaf software engineering intern thanks to the efforts of NCCC. Taylor says having a career center that specializes in helping deaf and hard-of-hearing students get coops and jobs makes RIT the perfect place to prepare for her career.

Cortez Harris, a criminal justice major, landed a job at the Wisconsin Department of Corrections as a probation and parole officer. While an undergraduate student at RIT. he was involved in extracurricular activities with student-led organizations such as Ebony Club and the Criminal Justice Student Association, which helped him gain critical communication, problem-solving, and leadership skills to prepare for a successful career. Harris says his involvement with organizations on campus benefitted him in his ability to advocate for the community and make a difference in the lives of others.

countermeasures, and counterengineering career.

Agon Deski is a mechanical engineer at the U.S. Naval Research Laboratory, working in the Tactical Electronic Warfare Division. He analyzes electronic warfare systems for determining their performance and improving their effectiveness in relation to measures of electronic warfare support, electronic countermeasures. He credits the intensive mechanical engineering and robotics courses he took as an undergraduate and graduate student in helping him to develop a strong foundation of knowledge that has successfully prepared him for his

Barbara Essex earned an associate degree in laboratory science technology and is pursuing a bachelor's degree in biomedical science. Her associate degree prepared her well for her co-op experience as an intern at Dow Chemical Company because she got extensive hands-on experience with lab equipment in her classes. She also benefits from being a research assistant at the RIT/NTID Deaf Health Care and Biomedical Science Hub that supports pathways to healthcare careers and creates a network for deaf scientists. She says her co-op and research and networking opportunities are creating the best experiences for her during college and preparing her for a successful future.

Access your future.

Access Services and Support

RIT provides one of the most accessible education communities in the world for deaf and hard-of-hearing students.

RIT is one of only six universities in the nation that has been named a Microsoft Accessible University for its endeavor to improve upon and provide cutting-edge accessibility solutions.

If you take courses in RIT's College of Art and Design, Saunders College of Business, Golisano College of Computing and Information Sciences, Kate Gleason College of Engineering, College of Engineering Technology, College of Health Sciences and Technology, College of Liberal Arts, College of Science, School of Individualized Study, or Golisano

Institute for Sustainability, you can choose from among:

- sign language interpreting services,
- FM systems,
- real-time captioning services, and
- notetaking.

Alternative services also may be provided. In addition, you will have access to educational support services such as tutoring by experienced faculty tutors, personal and career counseling, and academic advising. These faculty tutors, counselors, and advisors are skilled at working with deaf and hard-of-hearing students of all communication modes.

If you take NTID courses, faculty members will communicate directly using a variety of strategies, such as:

- sign language with voice,
- sign language without voice,
- spoken language (FM systems are available)
- printed/visual aids,
- web-based instructional material, or
- individual tutoring.

In cases where a faculty member's communication strategies do not appropriately meet your needs, you can request access services from the Department of Access Services.

An assigned counselor will work closely with you to help plan your collegiate experience and provide personal, social, career, and academic advising and counseling services.

Audiology and Speech/ Language Services

You don't have to leave RIT's campus for audiological and speech/language services. RIT/NTID in-house audiologists and speech-language pathologists are certified by the American Speech-Language-Hearing Association and are specifically trained to work with deaf and hard-of-hearing individuals.

Audiology

The Audiology Center offers a variety of free services, including:

- hearing tests
- consultations
- Roger (FM/DM) and other equipment loans

- adjustments

An additional advantage is discounted pricing for new hearing aids and accessories. You also can purchase batteries, custom sound/swim plugs and earmolds, and other supplies.

Speech/Language

The Speech and Language Center offers individualized services, and can focus on a variety of areas, such as: speech intelligibility

- vocabulary and practice

speechreading and/or listening training • hearing aid and cochlear implant

• troubleshooting, repairs, and upgrades

grammar and technical/professional

- communication strategies for workrelated interactions/job interviews
- presentation skill development and practice
- use of current mobile applications as communication tools

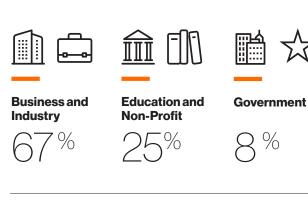

The Speech and Language Center offers equipment and software that provides visual feedback for production and facilitates conversational practice.

RIT also offers optional introductory American Sign Language classes for deaf and hard-of-hearing students who are interested in learning ASL as well as courses for students who use ASL and want to expand their skills.

Aninvestment that pays.

When it comes to helping deaf and hard-of-hearing students graduate and get jobs, there is no better place than RIT.

Deaf and hard-of-hearing RIT alumni thrive in all economic sectors

Deaf and hard-of-hearing RIT grads are in demand.

Average Salary

According to a study conducted with the Social Security Administration, deaf and hard-ofhearing RIT graduates had higher career earnings than their deaf and hard-of-hearing peers who attended other postsecondary institutions.

Don't just take our word for it.

Each year, RIT is recognized by several external guides and rankings for its value and affordability.

Higher career earnings

- Other Postsecondary Institutions

- U.S. News & World Report: > Ranked 11th among "Top Schools for Co-op
- and Internship Programs (2023)." > Ranked 41st among **"Most innovative**
- Schools (2023)."
- > Ranked 48th among **"Best Value** Schools (2023)."
- Wall Street Journal/Times Higher Education: Ranked 38th for "Student Engagement (2023)."
- Money Magazine: Named among **"The 50** Colleges that Add the Most Value."

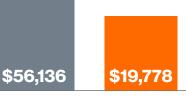

Because RIT receives federal support, students who are deaf or hard of hearing pay less than one-half of RIT's regular tuition rate.

In addition to the tuition reduction, you'll have a full array of financial aid options to help you cover the cost of education, including scholarships, grants, loans, statebased Vocational Rehabilitation support, and Supplemental Security Income assistance.
