Overview

Admission Pathways

- Applicants select from three entry paths:
  - Directly to a major and start your desired course work right away.
  - Apply to a college-based Exploration Option to learn more about specific majors within a college.
  - Apply to the University Exploration Option to explore majors across our nine colleges.

Admission to RIT is competitive, but our admission process is a personal one. Each application is reviewed holistically for strength of academic preparation, counselor recommendations, and your personal career interests. We seek applicants from a variety of geographic, social, cultural, economic, and ethnic backgrounds.

For all bachelor’s degree programs, a strong performance in a college preparatory program is expected. Generally, this includes 4 years of English, 3-4 years of mathematics, 2 years of science, and 3 years of social studies and/or history. See specific math and science requirements and other recommendations below.

RIT is test-optional. You may choose to apply to SAT/ACT test-optional, or choose to have scores considered with your application.

Admission to RIT/UVU is competitive, but our admission process is a personal one. Each application is reviewed holistically for strength of academic preparation, counselor recommendations, and your personal career interests. We seek applicants from a variety of geographic, social, cultural, economic, and ethnic backgrounds.
