2. COACHE Survey 2019 Results with Gary Behm	<p>NFC met with Gary Behm regarding the NTID COACHE results. The focus of the meeting was on certain areas of weakness in the results:</p> <ol style="list-style-type: none"> 1. Satisfaction with leadership (leadership referring to the dean’s level and divisional leadership level) – Results showed that many were not satisfied with the two levels. NTID’s action plan is to improve communication and transparency on different plans. 2. Trust of Governance – The NTID administration plans to survey the faculty members to boost areas of governance. <p>NFC recommends that the administration’s next step is to analyze the data with more detail to find out what caused the responses regarding the topics mentioned above. NFC would like the administration to share their feedback regarding the COACHE survey and how they plan to resolve the areas of weaknesses.</p> <p>NFC encourages administration to disseminate the COACHE survey results to the NTID faculty community as soon as possible so that faculty members can review and respond to the results.</p>
