

RIT Lean Six Sigma Open Yellow Belt – Blended Online 2023

Unlike self-paced online training, our instructor-led approach keeps you actively engaged with our expert instructors and other program participants while still providing flexibility to meet your other commitments. Learning materials include pre-recorded lectures, team exercises, and quizzes; online “discussion boards”; and “live” project review sessions via web-conference to discuss team exercises and offer feedback on your project.

A live interactive orientation session is held to provide you the opportunity to meet your instructors and classmates, navigate our online learning platform, understand course expectations and answer questions.

Schedule for October 4 – November 1, 2023

- October 4: (9:00-10:30am): Orientation
- October 11: Course starts (online material available)
- October 20: (8:30am-12:00pm): review session (web-conference)
- October 25: (8:30am-12:00pm): review session (web-conference)
- November 1: (8:30am-12:00pm): review session (web-conference)
