

A message from the provost

Dear Academic Affairs Community,

Here are some items for your review this Friday. Have a wonderful weekend!

Town Hall Recap

Thank you for joining me on Monday for the Provost Town Hall. If you missed it, the [slides](#) from my presentation are available on the Office of the Provost Communications website: www.rit.edu/provost/communications. For those of you who were able to attend, thank you for joining in person and online. I appreciated your thoughtful questions. The next Provost Town Hall meeting will be held during the spring semester. If you have any additional questions, never hesitate to reach out. You can always contact me at provost@rit.edu.

RIT Academic Affairs on LinkedIn

While I have your attention, I also encourage you to join the conversations online via [The Division of Academic Affairs on LinkedIn](#). There, my office shares notable happenings from within our division on a public forum, such

as news-making faculty achievements, major events, staff news from around campus, and even some light-hearted content on the fun side.

Provost Speaker Series Kick-off

Last, please save the date for the first Provost Speaker Series Lunch n' Learn event: Friday, November 14, 2025 at 12:00 p.m. The speaker is Dr. Jeyhan Kartaltepe, Professor, School of Physics and Astronomy, College of Science. The title of her presentation is: Exploring the Universe with the James Webb Space Telescope. This event is online only and registration is required.

Thank you for your continued support of our community. I look forward to seeing you around campus as the leaves change colors and the fall weather arrives!

Sincerely,

A handwritten signature in dark ink, appearing to read "Prabu". The signature is fluid and cursive, with the first letter being a large capital 'P'.

Prabu David, Ph.D.

Provost and Senior Vice President for Academic Affairs
