

"Exploring the Universe with the James Webb Space Telescope" featuring Dr. Jeyhan Kartaltepe

Please join us for the first installment of the Provost's Lunch and Learn Speaker Series, featuring Dr. Jeyhan Kartaltepe, who will present:

"Exploring the Universe with the James Webb Space Telescope"

Friday, November 14, 2025

12:00 p.m. - 1:00 p.m.

Online only. [Registration is required.](#)

You don't need to be an astrophysicist to enjoy this talk! Dr. Kartaltepe will guide us through the groundbreaking discoveries made possible by the James Webb Space Telescope in a way that is accessible and engaging for all members of Academic Affairs. She'll also highlight why this work matters—not just to the field of astronomy, but to the broader academic and research community. What to expect:

- A behind-the-scenes look at how JWST is transforming our understanding of the universe
- Opportunities for interdisciplinary connections and research inspiration
- Time for Q&A with Dr. Kartaltepe

Dr. Kartaltepe is an astrophysicist in the School of Physics and Astronomy and a co-PI of the COSMOS collaboration, a major international survey using nearly every major ground- and space-based telescope.

Please [register to attend](#).
