

## Undergraduate Policy: Satisfactory/Pass/No Pass Option (Temporary policy in effect for Spring 2019-2020 only)

Rochester Institute of Technology has adopted an amended grading option that students can elect to take advantage of for courses enrolled in for Spring 2019-2020 (2195) term.

At the conclusion of the Spring 2019-2020 (2195) term, all instructors will assign grades for classes as normal. Once grades have been assigned, students will have the option to elect to change any or all of their enrolled classes to be graded on a Satisfactory/Pass/No Pass basis.

For enrolled courses in the Spring 2019-2020 (2195) term, there is no limit to the number of courses/credits allowed to be taken using the Satisfactory/Pass/No Pass grading option. This option is available for all undergraduate courses that are traditionally graded. This excludes wellness courses and cooperative education as they are already designated as Satisfactory/Fail. Students are permitted to have a combination of traditionally graded coursework and Satisfactory/Pass/No Pass coursework.

Courses graded with the Satisfactory/Pass/No Pass option will not impact the term or cumulative GPA.

If an undergraduate student elects the Satisfactory/Pass/No Pass option, they will earn credit in the following manner:

Grade	Description
SE	Satisfactory - performance at the levels of A, A-, B+, B, B-, C+ or C and full course credit is earned.
PE	Pass - performance at the levels of C- or D and full course credit is earned.
NE	No Pass - performance at the level of F and no course credit is earned.

Starting after grades are submitted, students may elect to change courses to the Satisfactory/Pass/No Pass option for the Spring 2019-2020 term. The option remains available until the time the degree is certified.

A student may also request that the Satisfactory/Pass/No Pass option be changed back to a regular letter grade, which will then be calculated in the term and cumulative GPA. Such a request will be honored if made before the student degree is certified. Should an instance occur in which the importance of a traditional grade is not known until after degree certification, the University will have an appeal process in place by which students can request that special attention be paid to their request for grading option reversal. This request will be managed by the Office of the Registrar and in consultation with the college Dean's Office and the Office of the Provost.

Courses taken in Spring 2019-2020 (2195) that are repeats of previously completed courses where the student chooses the Satisfactory/Pass/No Pass option will continue to remove the grade and GPA statistics from the previously enrolled term however the student will not see a GPA for the course in the current term.

Students who repeat a course they have failed, and who select the Satisfactory/Pass/No Pass grading option, must pass the course in Spring 2019-2020 (2195) (SE or PE) in order for the first failing grade to be removed from the GPA.
