“Entrepreneurs talk about their mistakes”

DETAILS

Digital Rochester’s last 2015 Failure Sessions event, co-sponsored by RIT Venture Creations, was held Tuesday, October 13, 2015. Richard Notargiacomo, Interim Director at Venture Creations was a panelist.

Previous Failure Sessions included failures from a startup CEO perspective, while the second one was a mashup of people in different positions. Tuesday’s event focused on failures from the chief technology officer’s point of view.

In 2016, there will be three more Failure Sessions. The first one in March will feature women entrepreneurs. Watch the Digital Rochester website for information on the upcoming Sessions.
