

What is Phishing?

Phishing is the fraudulent practice of sending spoofed emails that appear to be from reputable sources in order to trick individuals into revealing personal identifying information (PII).

DIGITAL SELF DEFENSE: RID RIT OF PHISHING ATTEMPTS

REPORT

Report any phishing attempts to:
spam@rit.edu and **infosec@rit.edu**

INSPECT

Inspect your computer if you clicked on a suspicious link by running a virus scan. Change your password if you provided it.

DELETE

Delete any phishing attempts.
