

## Recent Changes to SIS

1. **Favorites** - Reintroducing favorites on the left-hand side when you login to SIS. For those who previously had favorites, you will see your old favorites. You can add more pages to your favorites by clicking the three dots at the top right corner of the page. You can also delete some pages that may not be your favorite any more by click the favorites button
2. **Recent Places** - Right above your favorites you will find recent places which is quick access to pages you have navigated to.
3. **Search Bar** - Front and center on your homepage when you login there is a new search bar. This search bar will find the page you are looking for in real time.
4. **Notifications** - A new section exists on the right-hand side of your homepage. While we are not yet using this feature, it may be utilized in the future.
5. **Menu Order** - The menu within the navigator is now alphabetical order. This can be changed to the standard order by clicking on the setting icons in the upper right.
6. **Settings** - Click the three dots on the top right corner and navigate to My Preferences. Here you can select to enable or disable autocomplete within Navigation > Personalizations. You can also set default values within Campus Preferences.
