

Date

Dear First Name,

We would like to extend you a warm welcome to RIT and the College of Engineering Technology. You are joining an exciting and demanding college that will provide an education to help you meet the expectations and opportunities you will encounter in your career and throughout your life. It is our hope that your academic career at RIT will prove to be fruitful and challenging.

Transferring to a new college is exciting, but it can be overwhelming. By now you have received information from RIT's New Student Orientation program about navigating your new campus, including the RIT New Student Welcome Guide, which contains a checklist of to-do items and information about the many services and resources that will help you make the most of your experience at RIT. You will also find details about the DiscoverIT Pre-Orientation Program, which will be held on Saturday, August 18 – Tuesday, August 21, 2018. All freshmen and transfer students that are not participating in DiscoverIT will move in the on Tuesday, August 21, 2018. To help you have a successful transition, Transfer Student Orientation is scheduled for Tuesday, August 21 – Saturday, August 25, 2018. You can find more information at www.rit.edu/orientation. Registration is required for Transfer Student Orientation.

Once you have paid your deposit, we will pre-register you for fall term classes. Using your RIT computer account and password, you will be able to access your tentative schedule online sis.rit.edu. If you will be participating on an RIT athletic team or if you anticipate receiving AP or transfer credits, please let us know. This will help us make an appropriate schedule based on your specific academic needs. In addition, students in certain programs are required to take the Math Placement Exam (MPE). The MPE is available from **May 15-June 30, 2018**. To access the exam or for more information, please visit <https://www.rit.edu/science/mpe>.

Academic advisors will be available to help you finalize your schedule and make any adjustments during Orientation. On Thursday, August 23, 2018, you will meet fellow students as well as faculty and staff at your mandatory group advising session where we will review curriculum requirements, and answer scheduling questions. Advisors will be available throughout your years at RIT to assist you with career planning and any other advising issues.

You will find that the Department of Manufacturing and Mechanical Engineering Technology will offer you the support, challenges, and rewards you expect in a high quality academic program. If we can assist you as you prepare to transfer to RIT, please contact us at 585-475-2270. Also, please be sure to introduce yourself to us during Orientation.

We congratulate you thus far on your accomplishments and look forward to meeting you this fall.

Sincerely,

Sincerely,

Dr. Robert Garrick Ph.D.
Professor and Acting Department Chair
Department of Manufacturing and Mechanical
Engineering Technology
