

Dear First Name,

I would like to extend you a warm welcome to RIT and the College of Science. You are joining an exciting and demanding college that will provide an education to help you meet the expectations and opportunities you will encounter in your career and throughout your life. It is our hope that your academic career at RIT will prove to be fruitful and challenging.

To start your career at RIT off on the right foot, we encourage you to visit the RIT New Student Orientation website for further information about our program. Their website and materials contain a checklist of to-do items and information about the many services and resources that will help you make the most of your experience at RIT. You will also find details about the [DiscoverIT Pre-Orientation Program](#), which will be held on Saturday, August 18 – Tuesday, August 21, 2018. Freshmen not participating in DiscoverIT will move into the residence halls on Tuesday, August 21 and New Student Orientation will run through Saturday, August 25, 2018. You can find more information at www.rit.edu/orientation.

All freshmen will be pre-registered for fall term courses in late-July. In addition, students in certain programs are required to take the Math Placement Exam (MPE). The MPE is available from **May 15-June 30**. To access the exam or for more information, please feel free to visit: <https://www.rit.edu/science/mpe>.

On Thursday, August 23rd, you will spend the day with the College of Science, primarily engaged in activities to introduce you to the faculty and the culture within your new department. You will also have access to your academic advisor in case your schedule needs adjusting. Advisors will be available throughout your years at RIT to assist you with career planning and any other advising issues.

You will find that the College of Science will offer you the support, challenges, and rewards you expect in a high quality academic program. If we can assist you as you prepare for college, please contact Dr. Paul Craig by email at paul.craig@rit.edu, or by phone at 585-475-6145. Also, please be sure to introduce yourself to me during Orientation. I congratulate you on your accomplishments thus far and look forward to meeting you this fall.

Academic Major	Advisor Name	Advisor Phone Number	Advisor Email
Computational Mathematics, Applied Statistics, Physics, Imaging Science	Lindsay Cohen	585-475-6479	lacao@rit.edu
Applied Mathematics, Bioinformatics	Lindsay D'Alleva	585-475-5147	lkdia@rit.edu
Biology, Biotechnology	Rosanne Klingler	585-475-4765	rkssbi@rit.edu
