Welcome to RIT and the College of Engineering Technology. We are excited to have you join our community. As a new RIT Tiger, you have expressed commitments to our traditions of academic, social, and professional curiosity. We are certain that your RIT career will be fruitful and look forward to your contributions. In preparation for your arrival on campus, we have a few tasks you should complete. Please take note of the timelines and do not hesitate to contact us if we can be of assistance.

Transferring to a new college is exciting, but it can be overwhelming. To help you have a successful transition, transfer students have the option of coming to Orientation for the entire time from Tuesday, August 20 (Move-In day) to Sunday, August 25, 2019. You also have the option of only attending Academic Day on Thursday, August 22, 2019. You can find more information at rit.edu/orientation/new-student-orientation-transfer.

**Before you arrive on campus for New Student Orientation, please complete the following:**

- Set up your RIT computer account and create a password.
- Take the Math Placement Exam (MPE), offered between the dates of May 15–June 30, 2019.
- If you plan to take language courses you are required to take the Language Placement Exam.
- Notify your program at jxpmet@rit.edu if you anticipate receiving AP credit, PLTW credit or credit from another university.
- Notify your program at jxpment@rit.edu if you are participating on an RIT athletic team – to minimize scheduling conflicts.
- Review the Orientation checklist.
- The CET advising team can be found here.
- Read the Dean’s welcome letter on our website.

Once you have paid your deposit, you will enroll you in your fall semester classes, but you will have the opportunity to make changes to this schedule prior to the start of classes. Using your RIT computer account and password, you will be able to your tentative fall semester schedule online at sis.rit.edu (Beginning August 1, 2019).

We are excited to meet you on Thursday, August 22, 2019 of Orientation week, during Academic Day! You will have an opportunity to:

- Meet fellow students, faculty, and staff in your major
- Meet with your Academic Advisor
- Review curriculum requirements and receive answers to any scheduling questions you may have

We believe that you will find the Manufacturing and Mechanical Engineering Technology (MMET) experience supportive, challenging, and rewarding. You can learn more about the college and our team on our website.

We congratulate you on your accomplishments and look forward to meeting you this fall.

Sincerely,

Dr. Robert Garrick Ph.D.
Professor and Acting Department Chair
Department of Manufacturing and Mechanical Engineering Technology
rdgmet@rit.edu

Dr. S. Manian Ramkumar Ph.D.
Interim Dean
College of Engineering Technology
