Steps to be completed:

1. Take the online Math Placement Exam (MPE) if required by your department. The MPE will be open from May 15-June 30, 2019.

2. Register for Move-In Day and Orientation alerts. Text RITORI to 888777 to receive immediate text alerts and updates on Move-In Day.

3. Return your health history and immunization forms by July 1. *You are required to have your RIT email account activated in order to access the wellness portal to upload your health documents.

4. Activate your RIT computer account and RIT email before July 15. Many action steps you need to take require that you have your RIT email account activated. You have received an account activation email to the email address you used when applying to RIT.

5. RIT Message Center is our way to communicate with you about campus events and important updates related to RIT. To personalize your user preferences so that you don't miss important information about Orientation, go to rit.edu/marketing/message-center so that you don't get overwhelmed with the number of emails coming to your RIT email inbox.

6. Register for your RIT ID by August 15.
Account Setup

Your RIT Computer Account enables access to RIT's wireless network, email and calendars, human resources, and student information systems. We will need for you to activate your RIT computer account and email in order to receive additional information from Orientation this summer.

Health and Wellness

Here at RIT, we are dedicated to help you engage with your physical, emotional, and spiritual well-being. To prepare for coming to RIT this fall, we are asking that you complete the required action steps outlined in your Welcome Guide and on the New Student Checklist. You will need to complete five health documents. These steps ensure a safe and healthy environment for the entire RIT community.

If you have questions, contact us at orientation@rit.edu.
