

## **Resource Stewardship Guidelines:**

All staff in the division are stewards of the university's fiscal, physical space, technological and human resources.

As stewards of division resources, we embrace:

- ▼ Strategic resource models that allow us to focus on strengthening the student experience in a sustainable manner.
- ▼ Intra-division collaborations reinforcing the flexibility and holistic nature of resource management.
- ▼ Allocating resources across departments to meet emerging opportunities, student needs and program enhancements.
- ▼ Recognizing that any expenditure contributes to students' cost of attendance and, therefore, must be reasonable and effective to meet the business need in providing student service and support.
