

- **Focus is to engage with the material**
- **Ask yourself if you understand the concepts and if you are prepared to demonstrate your understanding**

Suggestions and Examples

- ☐ **Check myCourses**
- ☐ **Go to class**
- ☐ **Do homework**
- ☐ **Use office hours**
- ☐ **Visit study centers**
- ☐ **Plan your Approach**

As the test/assessment approaches or project is due

- ☐ **Test yourself - create a series of questions that you think might be on the test... ask your professor if you are on the right track**
- ☐ **Finalize presentation or project**
- ☐ **Cheat sheet**
- ☐ **Concept sheet**
- ☐ **Formula sheet**
- ☐ **Flash cards**
- ☐ **Create practice tests and proof to yourself that you can answer the questions/apply concepts.**
- ☐ **Teach/Explain course material to someone else. Are you able to do it?**
- ☐ **Meet with a study group**
- ☐ **Complete the Exam Study Plan**
- ☐ **CAD Project Management tool**
- ☐ **Project Management tool**
- ☐ **Become a teacher**
- ☐ **Derive examples from your own experiences**
- ☐ **[Non-technical courses] begin understanding the big ideas so you are able to explain, contrast.**
- ☐ **Self-test**
- ☐ **Create a Study Guide/Rubric**
- ☐ **Know the criteria**
- ☐ **Know the format**
