Study Abroad For

Computing & Information Sciences Students

4 Reasons Computing and Information Sciences students should study abroad

International experience is becoming a priority for computing majors as companies look to develop new solutions for global markets.

Gain first-hand insight into innovative computing and technology systems being developed around the world.

Develop professional and cross-cultural skills to make you stand out when applying for jobs, graduate schools, or research programs.

Explore the unexpected, solve problems, and add a global perspective to what you learn in the classroom.

The Japanese Game Industry | RIT Faculty-Led Program

Featured Programs

RIT Croatia Zagreb, Croatia
RIT Dubai Dubai, United Arab Emirates
Fall or Spring Semester

Spend a semester taking computing courses at an RIT Global Campus (Zagreb, Croatia or Dubai, UAE).

Study in Croatia's capital city of Zagreb and take courses in Web & Mobile Computing and Computing & Info. Sciences.

The innovative city of Dubai is the ideal backdrop for taking courses in Cybersecurity and Computing & Info. Sciences

No language requirements. Coursework taught in English.

Summer in Tokyo
J.F. Oberlin University
Affiliate Program through CIS Abroad

Spend between 2 to 8 weeks in Tokyo taking courses related to Japanese culture that GCCIS majors can use towards perspectives or free electives. No language requirements. Coursework taught in English.

Dominique Molee
GCCIS, Computing & Information Technology
Studied in Zagreb, Croatia

"Study abroad helped me grow by showing me how independent I can be, which gave me more confidence in myself. Since I was able to travel and live in a new country while managing classes and expenses, I realized that I could handle more than I thought!"

When You Should Go

The GCCIS study abroad pathways identify the optimal timing for semester-long study:

Major	Timing
Computing & Info Tech	3rd year, fall
Computer Science	4th year, spring
Computer Security	3rd year, fall
Game Design & Development	4th year, fall
Human Centered Computing	3rd year, fall
New Media Development	3rd year, fall
Software Engineering	3rd year, fall or spring
Web & Mobile Computing	3rd year, fall

However, work with your academic advisor to determine the best timing for you.

Tips

Consider taking some immersion, perspective, or general education courses while abroad for more flexibility with program options.

If you can't fit a full semester abroad into your course plan at RIT, summer programs and short-term faculty-led programs are an excellent alternative.

Financial aid and study abroad scholarships are available. Ask a study abroad advisor for more details.

Getting Started

1) Learn more at: rit.edu/StudyAbroad

2) Meet with your academic advisor to discuss timing and coursework.

3) Explore programs in the Compass database: rit.edu/studyabroad/compass

4) Make an appointment with a study abroad advisor: www.rit.edu/studyabroad/advisormeeting

Computing & Information Sciences Programs Abroad

(All programs offer coursework in English unless otherwise noted)

✈ RIT Student Favorite

(CIT) Computing & Info. Technologies
(CS) Computer Science
(CSEC) Cybersecurity

(GDD) Game Design & Development
(HCC) Human-Centered Computing
(DHSS) Humanities, Computing & Design

(SE) Software Engineering
(WMC) Web & Mobile Computing
(NMID) New Media & Interactive Development

Location	Term(s) Offered	Provider	Program Title	Coursework
RIT PROGRAMS				
Zagreb, Croatia	Summer	RIT Global Campus	Summer Minor in Business	15 credits to complete a full minor in Business Administration in one summer
Zagreb, Croatia ✈	Fall, Spring	RIT Global Campus	RIT Croatia	(CS) (WMC)
Dubai, UAE ✈	Fall, Spring	RIT Global Campus	RIT Dubai	(CIT) (CSEC)
