

Learning Kit: Career Development

Have you taken the time to think about your next step in your career and how you are going to get there? Career development is a combination of self-awareness, exploration, planning, and decisions you make that shape your career over time. It's a process to be visited and revisited over time and can change and evolve. Keeping your career plan on the forefront of your mind will be beneficial in the long run so you ultimately know where you are headed.
