

## **Brief Introduction**

My name is Tian Meng, I'm a sophomore of Special Education College of Beijing Union University. My major is Art Design.

Although there are a lot of disabled students in the Special Education College of Beijing Union University, our life are similarly ordinary students'. We're getting along harmoniously with them. We're very happy, positive and optimistic. All the disabled are studying hard, so am I. If I'm free, I'll go to library, I'm striving to make my beautiful dream come true, I want to be a top class student and a very useful person to the society.

I love reading. Books are my best friend, I broaden my knowledge by reading, reading is a very joyful thing for me. I love dancing too. I feel that dance is the best body language for us, I can express my dream and feelings through it. I can make eyes contact with live audience and I can know my dance is very beautiful from their response. There are many activities in my college. I joined in Dancing Club, we're united well and very excellent at dancing in this club.

When I was a child, I entered Art Troupe of Beijing Union Committee for the

Disabled. Because of my diligence and love to dancing, teachers in the Art Troupe like me very much, I'm very confident of being a top in the troupe.

I took part in "Billions and Millions of Outstanding Females" on behalf of the college, I got support and good comments from the masses. I got many prizes such as the third place in National Contest of Dancing for the Disabled in 2003 and in 2005. I took part in Dancing World of CCTV and got an organization prize of Beijing TV Dancing Contest. I paid a visit to Russia and some villages in China as well. Our shows move a lot of people both home and abroad. I'm an excellent disabled ! I'm an excellent Chinese!
